

Self-contained despite a big handicap

43-year-old Henrik Tolborg from Mejlby invites the same-minded to also run out as self-employed and experience the freedom and the joy of it.

MEJLBY: 43-year-old Henrik Tolborg in Mejlby became seriously handicapped in 1994 by a bathing accident in South America, yet he liked to equip himself as self-employed.

He himself, seven years ago, established his one-man company Granit Express at the parents' farm in Mejlby Denmark, a few hundred yards from his private residence.

For daily reasons, he is due to his severe disability in a large part of the body, depending on five helpers 24 hours a day, but it does not prevent a personally happy sense of life and a great pleasure in freedom as self-employed.
