Explore Edgewood!

What leaf is it? Key it!

Follow the key on the other side to find out the leaf varieties. Then write the name by the photos.

A .................................................................

B .................................................................

C .................................................................

D .................................................................

E .................................................................

F .................................................................

Don’t touch me!

Poison oak may give you a very itchy rash. Wash with plenty of soap and water to avoid the itch!
