Our mission is to improve the health and well-being of low-income and vulnerable families and individuals in Southeastern Massachusetts.

Health Imperatives is deeply rooted in the communities we serve, bringing the benefits of a large health and human service agency to our regionally-based offices.

We are proud to partner with other local providers to ensure comprehensive care for those we serve. This includes hospitals and community health centers, law enforcement and legal services, employment and educational institutions, homelessness and housing assistance providers, mental health treatment agencies, and addiction and recovery services.
