

## SPH-BP1 ELECTROSTATIC SPRAYER

**CLEAN • DISINFECT • PROTECT™**

Product #: XXX-XXX

### Disinfect with Noroxydiff

A broad-spectrum disinfectant kills *C. difficile* spores in 2 minutes and a wide range of bacteria, viruses, fungi, and molds. This non-corrosive, cost-effective disinfectant is better than bleach because it does not need to be washed away after application and does not require personnel to wear protective equipment.

### Protect with Penetrexx

This antimicrobial finish offers around-the-clock surface protection by creating a biostatic protective shield on treated surfaces that fights microbial growth between cleanings and disinfection. Penetrexx reduces cross-contamination risks from high touch surfaces and promotes lower ATP scores.

### KN95 Face Mask & Essential PPE

Latex-Free, Cone-Style face mask with comfortable, elastic around-the-ear straps for a secure fit that helps reduce the spread of air-borne illnesses and viruses. Meets GB & CDC guidelines for TB Exposure. Please ask about other PPE that we offer.

### Product Description

Ideal for industrial applications, job sites, commercial projects and more. Compatible with any SPH Medical water-based disinfectants and surface protectant.

### Product Features

- Backpack available in 2.5 and 4-gallon sizes
- Standard 100 ft hose, up to 300 ft optional
- PVC tank with UV inhibitors
- Padded nylon straps
- Compatible with any SPH Medical water-based disinfectants and surface protectant

### Product Specifications

<b>Nozzles</b>	1 included, see below for more options
<b>External Air Supply</b>	Yes, (compressor not included)
<b>CFM Required</b>	1 nozzle 6-8 CFM (0.17-0.23 m <sup>3</sup> /min) 2 nozzle 12-16 CFM (0.34-0.45 m <sup>3</sup> /min) 3 nozzle 18-24 CFM (0.51-0.68 m <sup>3</sup> /min)
<b>Air line pressure</b>	60 to 70 PSI (4.2 to 4.9 kg/cm <sup>2</sup> )
<b>Electricity Required</b>	No
<b>Liquid Container Type</b>	2.5 or 4 gal. (9.5 L or 15.1 L)
<b>Dimensions</b>	40"H x 22"W x 42"L (1 m x 0.6 m x 1.1 m)
<b>Hose Length</b>	100 ft (30.5 m) air hose, standard, 300 ft (91.4 m) available upon request
<b>Weight</b>	7 lbs (3.2 kg), empty   42 lbs. (19.1kg), full
<b>Flow Rate</b>	1 nozzle - 2-2.5 gal/hr (7.6-9.5 L/hr) 2 nozzle - 4-4.5 gal/hr (15-17 L/hr) 3 nozzle - 5.5-6 gal/hr (20.8-22.7 L/hr)
<b>Spray Range</b>	15-20 foot range (4.6-6.1 m)
<b>Additional Options</b>	2 and 3 headed spray gun
