

CONVENTIONS AND NOTES:

* The data set is a series of spreadsheets developed in preparing *Florida Health Market Review 2019*.

* Files are organized using Microsoft Excel and gathered in a zip file for download.

* Most data are taken from the annual statements that each HMO submits to the Florida Department of Insurance, which follow the standard HMO blank of the National Association of Insurance Commissioners. The detailed financial (balance sheet and income-expense) and enrollment data are generally included for 1995-2010. The spreadsheets also include summary numbers for 1992-1994 that appear in the five-year summary table of the NAIC report. My research was selective, and these files do not include every data item that could be gleaned from the reports.

* Most of the files include additional analysis which begins below the base data tables or in other sheets within each workbook.

Spreadsheets in the first set are **bolded**.
