INSTRUCTIONS

1. Fill in the word blanks A through U. (We've done word P as an example.) Do as many words as you can, then . . .

2. Transfer the letters from the words into the indicated spaces on the acrostic square. (The letters in word P have been transfered, to start you off.)

3. The acrostic square—when completed—will spell out a complete quotation about Tektronix. The message reads left to right **across** the puzzle. It does **not** run up and down like a crossword puzzle.
Words in the quotation are separated by dark square **only**—not by the end of a line.

4. Puzzlers often find it easiest to work not only from the word list to the acrostic square, but also back **from** the square **to** the list. That is, when you can guess a word in the quotation, fill it in and transfer the letters to the proper blanks in the word list.

5. When the puzzle is completed, the first letters of words A through U, read from the top down, will spell out the **source** of the quotation (the person who said it, or the publication it came from, or both.)

ANSWER TO LAST TEKROSTIC:

"If we preserve the abilities and attitudes of the people in the organization, and the atmosphere that will keep the attitudes healthy, no one will outproduce us."

—Robert Fitzgerald
