

General pulling / Tractor rules (these rules apply to all pullers)

1. Officials ruling is final
2. A maximum of 4 hooks per tractor for each day
3. Tractors can only pull once per class
4. The C.A.T.P has a 55% win award, if a puller reaches 55% wins in a class they will be awarded at the winter banquet
5. The C.A.T.P also recognizes attendance for the pulling season in order to be recognized a member is required to participate in all but two events per year
6. Once a tractor has 55% wins in that weight class they can no longer run in that class unless it is for "FUN" with no payback
7. No entry fee will be refunded unless there is a mechanical failure to the tractor or eliminator.
8. If there is only one tractor in a certain weight class it will become a "Fun Pull".
9. Obvious or excessive consumption of alcoholic beverages and foul or abusive language will be grounds for disqualification.
10. Anyone less than 16 years of age with less than two year's experience with our club must run an emergency kill switch placed at the rear of the tractor. Official decision is optional.
11. The owner of the tractor must shut off the tractor if the track officials warrant it.
12. Tractors must be operated in a safe manner at all times, The driver must stay firmly seated during entire pull
13. Speed limit on or around the pull must remain below 6mph.
14. All tractors must be registered at least one half hour prior to the pull's scheduled start time. Must be signed up prior to class starting
15. Blacktop pulls will start at heaviest weight class and go lighter. Dirt pulls will start lightest class and go the heaviest class
16. Locked or limited slip differentials will not be permitted
17. Any parts or weights that falloff or are lost during the pull will disqualify the tractor that they fall off of
18. Tractors must be wheel driven no crawlers, dual wheels, MFWD, or steel wheels will be permitted
19. Tractor Weights
 - A. All tractors must weigh before hooking to the sled
 - B. No tractor may remove a wheel to make a weight class
 - C. Front weighs can be no further than 11' from the centerline of the rear axle
 - D. Rear weights cannot break the rear most point of the rear tires (check by a straight edge between the tires)
20. If a protest is made it needs to follow the following
 - A. The driver protesting must be pulling in that class
 - B. The protest must be made before the start of the next respective class
 - C. The protester and a club official will confront the protested driver with said issues
 - D. If a tractor is found to be non compliant for the class that they are in all awarded points and money from that day will be taken and that tractor will not be allowed back into that class until non compliances have been fixed

"Farm stock Tractor" Rules

1. Tractor will be stopped if the front end rises higher than the track official decides is safe
2. Tractors may restart pull if they stop there tractor before the orange cone that will be set out 75'
3. Tractors must run "10 % over" (as per NATPA chart) random checks will be done if you are found to be non compliant you will forfeit all enter fees for the day and winnings. Pullers may return to remaining events after RPM's have been corrected. The C.A.T.P will have a Tach on hand to test RPM's Please arrive early to the pull if you need to be checked. There will be no checking after the pull has started unless there is a random check going on.
4. No excessive stripping or Aluminum may be used to lighten a "FARM TRACTOR" all tractors must retain the original look
