English Pub Glass 20 oz. 553620	12	5 cases	\$5.70

Standard Set-up Charges

In producing all custom designed goods there are certain set-up fees required. Some are one-time fees and others require a set-up fee with each production run.

For Apparel, Headgear and Accessories

- **Embroidery work** – there is a one-time fee of \$50 to create the design template for creating the stitching. The actual cost of the embroidery work will depend on the amount of surface being embroidered and the number of stitches. Once you submit your art, we will be able to provide you with a cost per job.
- **Screen Printing** – There is a charge of \$28 per color per location for new screens. Unfortunately, the integrity of these screens won't hold up over time. If not reused within a few weeks, new screens need to be created when the next job is produced. However, we will save and reuse the film used to create the initial screens therefore only charging \$14 per color per location for reused screen work.

Glassware, Growlers and other non-apparel

- **Laser Engraving** - There is a one-time set-up fee of \$50 per design to create the etching template
- **Screen Printing** – As with apparel items the cost of the initial screen for each color and location is \$40 and subsequent print runs will have a \$20 fee per color screen and location.

Stickers, Magnets Tin Tackers and Coasters

- **Mapping Fee** – There is a one-time fee of \$50 to create the mapping pattern used to create production templates.
