WHY CHOOSE LANDA'S PC

The PC is the toughest of LANDA's direct-drive, cold water pressure washer line offering five models and cleaning power of up to 3500 PSI.

QUALITY: Only the highest quality components are used on the PC, including LANDA's tri-plunger high-pressure pump with 7-year warranty, industrial-duty Honda or Subaru-Robin engines, durable 10-gauge steel frame, and insulated point-and-shoot wand for cleaning effectiveness. The PC is certified to the rigid UL-1776 safety standards and has a 24-inch hose guard for burst protection and pictogram operating instructions for owner liability assurance.

CONVENIENCE: A number of features make the PC especially popular with users who seek to reduce their cleaning time. For instance, there are nickel-plated handles on both front and back for easy vehicle loading. The tubed pneumatic tires make for easy maneuvering in any terrain and the shock-absorbing rubber feet keep the PC from "walking" while in operation. The E-Z start valve (on models with 265cc engine or more) allows for resistance-free pull starting of the engine.
