

Philadelphia List  
January 2016

### **Why Philly Matters**

This city was thought of as dead – but it wouldn't die. Great urban plan and attractive layout but declining population, losing jobs, etc. So they shifted and they captured. They embraced diversity and the arts, they focused on neighborhoods and the residents responded. Residential development and renovations sparked it. Mix in strong neighborhoods, quality architecture, exciting arts, tourism, education and they were on to something. Then, Kimmel Center for the Performing Arts gets built to anchor downtown and new baseball, football and basketball arenas are developed nearby (but not downtown). Rittenhouse Square is one of the great urban spaces anywhere. And the whole grid and quadrants anchored by squares is wonderfully functional. Philly has a long way to go and “old” cannot become “new” all at once, but this city is real. It has character. Yeah, it shows its age sometimes and has made some mistakes (waterfront redevelopment). And economic challenges will probably always be there. But this is a neat place with some really great architecture. Funky and fun neighborhoods. Great restaurants. And what an arts scene – one of the best in the United States.
