finding a volunteer job...

Ask yourself...
- Would you like to work with adults, children, the elderly or with animals?
- Would you like to volunteer in person or remotely from home?
- Do you prefer to work alone or on a team?
- Are you better behind the scenes or do you prefer to take a more visible role?
- How much time are you willing to commit?
- What skills can you bring?
- What causes are important to you?

when you volunteer...

- Know what’s expected. You should be comfortable with the organization and understand the time commitment.
- Start small so you don’t over commit at first.
- Don’t be afraid to make a change. Don’t feel compelled to stick with a role you dislike if it is not the right fit. Talk to the organization about changing your focus or look for an organization that’s a better fit.
- Students, put your volunteer experiences on your resumes and think about the skills you learned while you were in that role. For many, this will be your first work experience.

the most valuable assets a volunteer can bring are...

- compassion
- an open mind
- a positive attitude
- a willingness to pitch in wherever needed

Volunteers typically work for 2-4 hours on a morning or afternoon shift at the shelter, once a week.
