Borough of The Bronx, Community Districts #4, #5, and #7, as shown on a diagram (for illustrative purposes only) dated August 21, 2017, and subject to the conditions of CEQR Declaration E-442.

Known as the “Jerome Avenue Rezoning” initiative, the Bronx office of the Department of City Planning (the applicant) is proposing a comprehensive Zoning Map change. The following chart identifies these changes which are proposed for an approximate 92 block area:

| 1) R7-1  | to   | R7A/C2-4       |
| 2) R7-1  | to   | R7D            |
| 3) R7-1  | to   | R8/C2-4        |
| 4) R7-1  | to   | R8A            |
| 5) R7-1  | to   | R8A/C2-4       |
| 6) R7-1  | to   | R9A/C2-4       |
| 7) R7-1  | to   | C4-4D          |
| 8) R7-1/C1-4 | to | R8A/C1-4       |
| 9) R7-1/C1-4 | to | R9A/C2-4       |
| 10) R7-1/C2-4 | to | R4-4D          |
| 11) R7-1/C2-4 | to | R8A/C2-4       |

| 13) R8   | to   | R8A            |
| 14) R8/C1-4 | to | C4-4D          |
| 15) R8/C2-4 | to | R9A/C2-4       |
| 16) R8/C2-4 | to | R8/C2-4        |
| 17) C8-3  | to   | R7A            |
| 18) C8-3  | to   | R7A/C2-4       |
| 19) C8-3  | to   | R8A            |
| 20) C8-3  | to   | R8A/C2-4       |
| 21) C8-3  | to   | R9A/C2-4       |
| 22) C8-3  | to   | C4-4D          |
12) R7-1/C2-4 to R7D/C2-4

23) C4-4 to R7A/C2-4
24) C4-4 to R8A/C2-4
25) C4-4 to R8A/C2-5

26) M1-2 to R8A
27) M1-2 to R8A/C2-4
28) M1-2 to R9A
29) M1-2 to R9A/C2-4

General boundaries for this rezoning proposal “centers” around Jerome Avenue, between 167th Street on the south and 183rd Street on the north. South of 167th Street the boundary extends to McClellan Street on River Avenue. Additional general boundaries includes:

- Edward L. Grant Highway, between Woodycrest Avenue on the south and the Cross Bronx Expressway on the north.
- East 167th Street, between River Avenue on the west and Grandview Place on the east.
- 170th Street, between Cromwell Avenue on the west and the Grand Boulevard and Concourse on the east.
- Mount Eden Avenue, between Jesup Road on the west and the Grand Boulevard and Concourse on the east.
- West 176th Street, between Davidson Avenue on the west and Jerome Avenue on the east.
- Tremont Avenue, between Davidson Avenue on the west and Walton Avenue on the east.
- Burnside Avenue, between Aqueduct Avenue on the west and the Grand Boulevard and Concourse on the east.
- 183rd Street, between Aqueduct Avenue on the west and the Grand Boulevard and Concourse on the east.

As specifically referenced in the Docket Description, numerous zoning changes are proposed.

Eliminating R7-1 District and establishing an R7A, R7D, R8A. R9A District:

- R7-1: Allows for medium density multi-unit development. FAR ranges from 0.87 to a high of 3.44.
- R7A: Facilitates high lot coverage and multi-unit development composed of seven and eight story buildings. FAR is 4.0.
- R7D: Promotes contextual development along transit corridors. FAR 4.2. Quality Housing bulk regulations are mandatory in R7D districts.
R8A: Quality Housing bulk regulations are mandatory. Buildings generally rise 10-to-12 stories set at or near the street line. FAR is 6.02.

R9A: Quality Housing bulk regulations are mandatory in R9A districts. High lot coverage and buildings composed of 14-15 stories typify residential development. FAR is 7.52. The area between a building’s street wall and street line must be planted and the interior amenities for residents are pursuant to the Quality Housing Program.

(Cross Reference Docket Description Points #4, #7, #8 for specific boundaries)

Changing a R7-1 and R8 District and establishing an R8A, R9A District

R8 District allows mid-rise buildings approximating eight to ten stories, to taller buildings set back from the street on large zoning lots. FAR ranges from 0.94 to 6.02.

R8A: Quality Housing bulk regulations are mandatory. Buildings generally rise 10-to-12 stories set at or near the street line. FAR is 6.02.

R9A: Quality Housing bulk regulations are mandatory in R9A districts. High lot coverage and buildings composed of 14-15 stories typify residential development. FAR is 7.52. The area between a building’s street wall and street line must be planted and the interior amenities for residents are pursuant to the Quality Housing Program.

(Cross Reference Docket Description Point, #9, #13, #14, for specific boundaries)

As proposed by the applicant, the R7-1 and R8 Districts are changed to a C4-4D District. C4-4D is a contextual district which allow for uses that serve a larger region. Theaters, department stores, specialty stores are permitted. Fordham Road typifies such districts.

(Cross Reference Docket Description #17, #18, for specific boundaries).

As proposed by the applicant, the C1-4 District within a proposed R7-1 District is eliminated. C1-4 Districts are commercial overlays that allow for retail activity within residential zones. Grocery stores and beauty parlors typify retail activity permitted in C1-4 Districts.

(Cross Reference Docket Description Point #1 for specific boundaries)

As proposed by the applicant, the C1-4 District within a R8 District is eliminated. C1-4 Districts are commercial overlays that allow for retail activity within residential zones.

(Cross Reference Docket Description Point #2 for specific boundaries)

As proposed by the applicant, the C2-4 District within a R7-1, District is eliminated. C2-4 Districts allow a wider range of uses such as funeral homes and tattoo parlors.

(Cross Reference Docket Description Point #3 for specific boundaries)

As proposed by the applicant, a C2-4 District within a R7-1, R7A, R8, R8A, R9A District is established. C2-4 Districts allow a wider range of uses such as funeral homes and tattoo parlors.

(Cross Reference Docket Description Point #20, #21, #22, #23 #24 for specific boundaries)

As proposed by the applicant, the C4-4 District is changed to a R7A and R8A District.
Retail development that typifies C4-4 zones is best reflected along Fordham Road. (Cross Reference Docket Description Point #5 & #10 for specific boundaries)

As proposed by the applicant, a C8-3 District is changed to a R7A and R8A, R9A C8 Districts “bridge” commercial and manufacturing uses. Car dealerships and auto-related retail activity typifies development in C8 Districts. (Cross Reference Docket Description Point #6 #11 & #15 for specific boundaries).

As proposed by the applicant a C8-3 District is changed to a C4-4D District. C8 Districts “bridge” commercial and manufacturing uses. Car dealerships and auto-related retail activity typifies development in C8 Districts.

C4-4D is a contextual district which allow for uses that serve a larger region. Theaters, department stores, specialty stores are permitted. Fordham Road typifies such districts. (Cross Reference Docket Description #19 for specific boundaries).

As proposed by the applicant, a M1-2 District is changed to an R8A and R9A District. M1-2 Districts include light industrial uses such as woodworking shops, repair shops, and wholesale services and storage facilities. Transient hotels are allowed in M1 zones. (Cross Reference Docket Description #12 and #16 for specific boundaries).

Establish the Special Jerome Avenue District. (Cross Reference Docket Description #25 for specific boundaries).

Key to improving the development profile where the elevated rail line is in place, is to require new development to adhere to zoning measures specifically provided for in this application for the Jerome Avenue Special District. These include:

- Buildings fronting on the elevated rail would allow a maximum base height of 30 feet before requiring a 10 foot setback before rising to maximum heights.
- On wide streets intersecting Jerome Avenue, above the maximum base height, building must be set back at least 10 feet from the street. On narrow streets, this setback must be 15 feet.
- Mapping R7A and R7D with a commercial overlay would allow for retail uses along the Jerome Avenue corridor, matching the surrounding neighborhood context. Maximum building height along elevated rail is 115 feet.
- Mapping R8A Districts to contextualize the areas now zoned R8. R8A Districts are also proposed along major wide streets including:
  - Edward L. Grant Highway (now zoned R7-1 & C4-4)
  - Macombs Road (now zoned C8-3)
  - 170th Street (now zoned R7-1 & C4-4)
    Maximum building height is 120 feet
- Mapping R9A at the confluence of multiple streets near the 167th Street #4 train station and the “D” train station on the Grand Boulevard and Concourse. Maximum building height is 195 feet along rail line, 175 feet elsewhere above the maximum base height,
building must be set back 10 feet from the street wall on wide streets, 15 feet when facing a narrow street.

- Map C4-4D at Burnside Avenue to encourage region-drawing commercial development
- Mid density residential development on Jerome Avenue with commercial overlays will create additional pedestrian activity by improving the lighting and overall profile of this area, specifically where the existing elevated rail trestle blocks out natural light during the day and hampers street lighting at night.
- Require planting, wall treatments and/or urban furniture on recessed spaces at the ground floor.
- Require non-residential uses along the ground floor
- Require that 20 percent of the façade of a building must recess three feet and by allowing dormers within 75 feet of corners
- Allow for additional building height on portions of the building fronting the elevated tracks

The applicant considers this comprehensive zoning proposal as a means to achieve a broad range of objectives that transcend the specific zoning map changes. These include the way by which the built profile within the boundaries of this proposal can improve the Jerome Avenue community. In addition, the applicant considers this as an opportunity to coordinate a wide range of services that will facilitate an improved standard of living and opportunities for those residing within this community and doing business here as well. Highlighting some of what these objectives are include:

1) Create a “sense of place” along the Jerome Avenue corridor, specifically where the presence of the elevated subway trestle is in place

2) Preserve existing affordable housing

3) Surveying of distressed properties through HPD’s Neighborhood Planning and Preservation Unit to connect property owners to resources which can be used to remediate the conditions of these properties.

4) Implement Mandatory Inclusionary Housing (MIH) to require all new residential development that occurs within the Jerome Avenue Special District be permanently affordable

5) Work with local businesses and developers along with the Department of Small Business Services (SBS) to promote economic opportunity for community residents.

6) Facilitate construction of affordable residences in one of New York City’s most “transit rich” locales.

7) Create greater retail diversity

8) Support the existing auto-related businesses and workers through the city’s Workforce1 Centers
9) Working with the Mayor’s Office of Workforce Development, the Department of Health and Mental Hygiene, Department of Small Business Services (SBS), Mayor’s Office of Immigrant Affairs; together these agencies will address the needs of the local workforce

10) Market services and opportunities within the Jerome Avenue corridor

11) Provide access to capital to support business and compliance needs

12) Encourage development that will enhance Jerome Avenue’s built profile as being safe, lively and active, resulting in a dramatic increase in pedestrian activity

13) Create more inviting public spaces, specifically on Jerome Avenue and along those avenues and streets that intersect Jerome Avenue through the installation of better lighting, coordinated street furniture and street trees

14) Improve the numerous step-streets that are present along Jerome Avenue, specifically at Featherbed Lane to Davidson Avenue at West 174th Street, Clifford Place---between the Grand Concourse and Walton Avenue

15) Consider ways by which access to the Cross Bronx Expressway at Jerome Avenue can be improved to reduce vehicular-pedestrian conflict

16) Improve wayfinding along the Jerome Avenue corridor, specifically where subway stations and bus transfer points exist

17) Encourage the Metropolitan Transportation Authority (MTA) to improve ADA compliant access to both the #4 and “D” train stations

18) Design and reconstruct numerous public park properties including:
  o Corporal Fischer Park
  o Grant Park
  o Aqueduct Walk

19) Identify locations for the siting of new public school facilities

Pending approval of this application a total of 15 residential buildings now located in either a C8 or M1 zone, will be located in a residential zone. Consequently, this existing development will conform to the proposed Zoning Map amendment.

Existing development within the area this application is considering includes mid-rise residential buildings on avenues running parallel to Jerome Avenue. As heretofore noted, 15 low and mid-rise residential buildings are located within the area being considered by this application. Consequently, whereas these buildings are currently located in either an M1-2 or C8 zone and
are therefore non-conforming, pending adoption of this application, these residential buildings will be conforming to an “R” zone.

Retail development prompting high levels of pedestrian traffic is typified by one-story commercial venues are situated on streets interesting Jerome Avenue; among these are 167th Street, 170th Street, Mount Eden Avenue, 175th Street, Tremont Avenue, Burnside Avenue, and 183rd Street. Commercial development specifically on Jerome Avenue includes auto-related venues, hardware supply stores, off-street parking facilities including garage bays, fast-food and dining establishments. Numerous discount retail stores and supermarkets are also found on Jerome Avenue. The recently completed New Settlement Community Center and Public School 240 are located on the west side of Jerome Avenue, in the vicinity of West 172nd Street. Jennie Jerome Park is a public park typified by benches located on asphalt is located on the east side of Jerome Avenue at 174th Street. Additional city-owned mapped parkland noted by the applicant includes:

- Inwood Park
- Morton Playground
- Grant Avenue Park
- Corporal Fischer Park
- Aqueduct Walk
- Richman Park (aka Echo Park)

Access to the Cross Bronx Expressway (Interstate 95) is situated on Jerome Avenue at 174th Street. Subway service via the #4 Train operates on an elevated trestle. Within the area this application is considering this subway service is available at 167th Street, 170th Street, Mount Eden Avenue, 176th Street, Burnside Avenue and 183rd Street. Subway access to the “D” Train is located on the Grand Concourse, approximately three blocks east of Jerome Avenue. Station stops include, 167th Street, 170th Street, 174-175th Streets, Tremont Avenue and 182-183rd Streets. Ample bus transportation is also found within this area, this includes both crosstown and uptown-downtown lines.

The primary rational for proposing this application by the Department of City Planning is based on the city’s need for additional affordable residential housing. As stated by the applicant’s representatives, the Jerome Avenue corridor is well served by mass transit and offers easy access to both Interstate 95 (The Cross Bronx Expressway) and Interstate 87 (The Major Deegan Expressway). Existing development along this corridor however, is virtually void of any residential accommodations. As such, the Department of City Planning is proposing the “Special Jerome Avenue District,” which it is predicted will eventually yield approximately 4,000 additional residential units. Such development is prohibited in a C8 or M1 zones.

ENVIRONMENTAL REVIEW AND ULURP CERTIFICATION

This application was reviewed pursuant to CEQR and SEQR and received a Negative Declaration. This application was certified as complete on August 21, 2017.

BRONX COMMUNITY BOARD PUBLIC HEARINGS

This application was reviewed by Bronx Community Board #4, #5 and #7. Community Boards #4 and #5 convened a joint hearing on October 4, 2017. Community Board #7 held a public
hearing on October 10, 2017. Each Community Board voted to approve this application with modifications. The votes were:

- Community Board #4: 32 in favor, four opposed, two abstaining
- Community Board #5: 18 in favor, 11 opposed, one abstaining
- Community Board #7: 21 in favor, two opposed, zero abstaining

BOROUGH PRESIDENT’S PUBLIC HEARING

The Bronx Borough President convened a public hearing on this matter on November 2, 2017. The applicant spoke in favor of this application. Approximately 150 members of the public were present. All those who signed a speaker’s slip were provided a two-minute time frame to offer testimony. Of those speaking, 51 people expressed opposition to this application, requesting that the Borough President recommend denying approval. Five people spoke in favor of the application. Four took no position or made a neutral statement, but recommended improvements. The hearing remained open for submission of written testimony until 5:00 p.m. on Thursday, November 9, 2017.

BOROUGH BOARD HEARING

The Bronx Borough Board convened a public hearing to vote on this matter on November 27, 2017. The applicant spoke in favor of this application. The Borough Board voted to approve this application with a vote of 8 in favor, zero opposed, and three abstentions.

BRONX BOROUGH PRESIDENT’S RECOMMENDATION

Encompassing 92 blocks, the Special Jerome Avenue District represents one of the most comprehensive Zoning Map changes ever to be proposed for any Bronx community during my tenure as Borough President. It has prompted one of the most detailed studies undertaken by my administration, City Council Member Vanessa Gibson, the Department of City Planning’s Bronx office and the Department of Housing Preservation and Development. I appreciate the magnitude of this undertaking. Nonetheless however, this matter remains most contentious. Perhaps this is because of what many Bronx residents see as having taken place in other communities where zoning changes impacting a multi-block area were adopted, most notably in Brooklyn.

Among many facts that I must consider as provided to me by my planning staff, Council Member Vanessa Gibson, the Department of City Planning and the Department of Housing Preservation and Development (HPD) include:

- The City of New York has an overwhelming need for additional affordable residential units that would include a broad range of incomes, especially for very and extremely low-income residents.
- If this zoning proposal is adopted, the Department of City Planning estimates that approximately 4,000 units of additional residential units is possible. Where C8 and M1 zoning is in place residential development is prohibited. I remain convinced this development projection is low.
• The median household income within the Jerome Avenue study area is approximately $25,900 per year.
• Two thirds of the existing residential units within this area are rent regulated.
• There is currently a combined shortage of 3,248 school seats within School Districts #9 and #10. Some estimates suggest this current shortage is substantially higher.
• Adding an additional 4,000 residential units will yield 2,388 additional students residing in School Districts #9 and #10.
• In Bronx Community Board #5 the current ratio of resident to mapped city-owned parkland is 5,000 people to every one acre.
• At my public hearing those speaking out against approving this application far exceeded those speaking out in favor of its adoption.
• The Department of City Planning and HPD both referred to a $1 billion investment fund through which a vast array of infrastructure and related improvements could be funded. The actual sum remaining available that might be tapped for eligible projects within the Jerome Avenue community remains unknown.
• Based on the outstanding effort made by Council Member Gibson, approving this application will facilitate capital investment made by the City of New York towards improving this community’s quality of life. The range of investments and services include:
  o $4.6 million for the redesign and reconstruction of Corporal Fischer Park
  o $4 million to rebuild Morton Playground
  o Investing in new streetscape specifically designed for locations under the #4 train’s trestle
  o Improving security
  o New and more efficient street lighting throughout the community
  o Create a specific Small Business Services (SBS) marketing plan to reach businesses on Jerome Avenue, connecting perspective employees with employers
  o Bring the SBS Mobile van to Jerome Avenue
  o Support community formation of a jobs network which will advise residents of good paying employment and provide access to job training and educational services
  o Bring Landlord Ambassadors to Community Districts #4 and #5
  o Enforce and follow-up on code enforcement

As I chaired my public hearing on this matter, every person who sought to offer comment was given the chance to do so. As such, this hearing lasted for upwards of four hours. Summarizing what was said, I offer the following points:

• There is an overwhelming fear that introducing new residential development into this community will ultimately result in tenant harassment by property owners who will want to capitalize on the influx of new, more affluent residents.
• As the median household income in this area approximates $25,900 annually, the additional housing this plan would facilitate will far exceed the affordability of those who now reside in the Jerome Avenue community.

• Whereas the School Construction Authority acknowledges there is now a shortage of school seats serving this community, no commitment of any kind is currently being considered to rectify this problem as it now exists.

• Substandard housing, most notably a profound problem associated with vermin infestation, has been known by the city for years, yet to date the problem has not in any noticeable way been corrected.

• Currently the only subway stations that are ADA compliant within the proposed boundaries of this application include the 161st Street stations serving the #4 and "D" trains.

• Residents of this community acknowledge the all-encompassing improvements and the additional ancillary services the city will offer those who currently reside in this community (for example job training programs, etc.). They now question why these services have not be made available in the past.

Having noted these many points, the stark reality is that the Docket Description being presented for consideration by myself and the Planning Commission makes no reference to the many recommendations, goals or capital improvements as articulated by all those who have been a party to this matter. As such, I entered negotiations with the City of New York and New York City Department of City Planning (DCP) to attain certain commitments that would address a significant amount of concerns regarding this proposed rezoning by the stakeholders involved.

The commitments, as agreed to by the City of New York and the relevant agencies, are as follows:

1) The City will launch a Certificate of No Harassment (CONH) Pilot Program that includes Bronx Community Districts #4 and #5 to protect tenants from being harassed from their homes.

2) The City has committed to preserving 1,500 units of affordable housing over a two-year period in Community Districts #4 and #5, keeping thousands of residents in affordable homes over the long-term.

3) In partnership with my office, HPD will create a Southwest Bronx Housing Task Force to identify buildings of concern. HPD will then create action plans for review and follow-up for these affected buildings.

4) The City has committed to guarantee that at least 10% of units will be set-aside for families earning less than 30% of the Area Median Income (AMI), and an additional 10% will be set-aside for families earning between 30-50% of AMI in HPD-financed new construction developments greater than 45 units, as a result of this rezoning. This will assure that these neighborhoods will remain truly mixed-income communities that serve some of our most at-risk residents.
5) The City will guarantee that half of the units constructed with HPD financing will be reserved for current residents of the local community district pursuant to HPD’s marketing guidelines.

6) The City has committed to extending a R8A zone west along Featherbed Lane to Macombs Road that will include the Starhill Campus (site of the original Calvary Hospital), which is managed by Services for the Underserved (SUS), a Citywide supportive housing organization, who has had a presence in The Bronx for over 30 years. SUS has committed to provide up to 400 units of affordable supportive and family residences, while setting aside 12,000 square feet or .275 acres of the site for publicly accessible open space (ownership and maintenance of which will be determined at a later date). The site will also include a community center and clinic.

7) The City has committed $8-$10 million to rehabilitate and provide access to the southernmost portion of Aqueduct Walk located between Burnside and Tremont Avenues, which has lain fallow for decades. This commitment includes providing access to this stretch via Morton Playground at the southern entrance, and reconstructing a pedestrian bridge over Burnside Avenue that would connect the northern part to the existing portion of Aqueduct Walk. This would provide both additional useable parkland in Morris Heights and establish better connections to open space in other neighborhoods.

8) DCP commits to a full discussion at the City Planning Commission on expanding the “C8 preservation zones”, which would allow for more existing automotive uses within the Jerome Avenue corridor to remain, expand or relocate to these areas.

I am pleased and appreciative of these commitments the City has made. The scope of these commitments, I understand, is the largest the City has made on a rezoning prior to a Borough President’s vote. In addition to these commitments, there are still several issues that I would ask the City to address. I urge that these issues be discussed and resolved either at the City Planning Commission or City Council:

1) While the commitment of preserving 1,500 units within Community Districts #4 and #5 over the next two years is welcome, I urge the City to commit to at least 2,000 units. Preservation is the biggest concern of these communities, as conditions are poor in many of these buildings coupled with the fear that major capital improvements will force them out of their homes.

2) HPD must create a comprehensive list of all residential buildings within a half-mile radius of where new zoning is to be established, pursuant to this application’s approval. HPD must then vigorously enforce all applicable housing codes while making available to property owners access to funding resources that will bring about compliance and by so doing aggressively preserve the privately owned, existing housing stock. The status of housing violations and legal services to tenants must be
made available to those elected officials who represent this area and to Community Boards #4, #5 and #7.

3) HPD must ensure that all new residential development of affordable housing to be constructed within the Special Jerome Avenue District comply with the following minimum gross square foot unit sizes, including:
   a. Studio units: 400 Square Feet
   b. 1 Bedroom units: 600 Square Feet
   c. 2 Bedroom units: 850 Square Feet
   d. 3 Bedroom units: 1,100 Square Feet

4) Acknowledging that the City of New York has established a specific sum of money for targeted improvements to be made within the Special Jerome Avenue District, a minimum amount (acknowledging that the actual costs may warrant additional allocations) of these monies must be so committed prior to adopting this zoning text amendment in order to best assure that the commitments made to the community and its elected officials can be realized.

5) The current shortage of school seats must be resolved by identifying potential sites for new school buildings and these new buildings must offer a seating capacity that anticipates any additional residential development prompted by approval of this application.

6) All retail establishments must allow for ample “sidewalk lighting” and transparency as produced by window displays. All security gates must be located within the store and not “block out” window shopping opportunities after closing.

7) Below are my recommendations for the expansion of the “C8 preservation zones.” Expansion in these areas meet an essential nexus of locating these facilities near the Cross Bronx Expressway, while still providing neighborhood access:
   o East side of Jerome Avenue, between Jennie Jerome Playground and East 175th Street;
   o Both sides of Jerome Avenue between Goble Place and the Cross Bronx Expressway
   o East side of Inwood Avenue, between West 172nd Street and West Mount Eden Avenue.

8) In addition to expanding the “C8 preservation zones,” the City must identify alternative Bronx locations for any existing automotive facilities that may be displaced, and adequately fund relocation, training and certification costs that would maintain viability for these businesses to operate and bring them in compliance.

9) A commitment by the Department of Parks and Recreation and the Department of Transportation to realize the following objectives:
o Capital funding resources allocated for the reconstruction and redesign of Edward L. Grant Highway to include traffic calming features such as wider planted medians, additional street-trees, and dedicated center bicycle lanes.

o Capital monies allocated for design and reconstruction of the malls located on University Avenue between West 174th Street and West Tremont Avenue that includes dedicated center bicycle lanes.

o Capital funds committed to the full design and build-out of Grant Avenue Park, including the de-mapped street bed.

o The Department of Transportation and the Metropolitan Transportation Authority (MTA) agree on a lighting plan that may require installation of LED lights directly on the #4 Train’s trestle.

o A comprehensive review of all step-streets that are within the Special Jerome Avenue District be undertaken by the Department of Transportation and that those step streets which require reconstruction; the monies for such work be identified and committed by 2020.

10) The establishment of a community center that would serve the under-resourced Highbridge neighborhood, which the southernmost end of the proposed rezoning abuts.

11) MTA commitment to installing ADA compliant elevators at Burnside Avenue and 170th Street on the #4 Train line and at Tremont Avenue and 167th Street on the “B/D” Train.

With the aforementioned commitments made by the City on behalf of both Council Member Gibson and myself, the City has acted in good faith to this point in addressing the serious concerns of the impacted communities. There is still much work to be done. I have full faith in the abilities of the City Planning Commission and City Council to act upon both my additional recommendations and other community concerns to assure that the implementation of this rezoning works to prevent longtime, invested residents from being displaced and that appropriate mitigation measures are realized pertaining to needed capital commitments that directly serve these residents, as well as potential business concerns, such as displacement, training and certification. With these commitments and recommendations, I vote in favor of this rezoning with conditions.
