

PI Cruises and PI Magazine
Bring You...

Learn At Sea!

**Earn Private Investigator
Continuing Education Units while
taking your family on vacation!**

As professional investigators we are always looking ahead at our calendars- time is valuable, and time is money. With all the work and cases ahead, it's important to keep your skills sharp and stay current through continued education and training. We all know the most effective way to do this is by attending seminars and participating in conferences and association sponsored events. Not only is training vital to staying knowledgeable, competitive and a step ahead of the next guy, it is integral to our continued effort to network with other PIs in the profession. Often networking is undervalued in our profession when it should be viewed as an important and valuable opportunity to meet and "talk shop" with our fellow PIs.

What if there was a way to obtain quality training along with a great opportunity to network AND have some fun and relax at the same time! Well, we have the answer! PI CRUISES!!!

PI Cruises is the perfect opportunity to earn Continuing Education Units (CEU'S) while taking a beautiful Caribbean cruise. Debra Allen of Allen Investigations is partnering with PI Magazine to bring you PI Cruise. Debbie brings her years of cruise experience offering a great one of a kind opportunity cruise.

The January 2020 cruise will be a 6-day training cruise departing from sunny Miami Florida January 27th through February 1st traveling to the beautiful island of Grand Turk of the Turks and Caicos Islands and the Caribbean's newest port of call, Amber Cove in the Dominican Republic.

Along the way you'll receive sixteen hours of professional training and development from some of the leading private investigators and subject matter experts covering the most comprehensive and topical training available. The advantage of PI Cruises is clear – combine great training and networking with a fun filled cruise and all at less than any stand-alone training seminar, conference, or Caribbean cruise! Remember to check with your tax advisor also!

Don't worry – family and friends are welcomed and encouraged to attend. There will be plenty to do while training is underway and lots of free time to enjoy yourselves together in the sunny Caribbean!

PI Cruises will depart from sunny Miami, Florida and you will travel aboard the Fantasy-class Carnival cruise ship, Sensation. Every corner of the ship is bursting with fun filled activities ranging from resort style pools and waterslides, to restaurants, night clubs, a spa, tons of other entertainment, and of course, great professional training accommodations!

The tentative agenda will include:

DAY 1: Meet & Greet PIs in attendance along with instructors, speakers, and exhibitors. A short lecture and discussion session will be completed and a complete agenda brief.

DAY 2: Two three-hour training sessions with a midday break in the warm sun! You'll be able to network and meet some of the best vendors in our profession.

DAY 3: Arrival at exotic Grand Turk island with tours available. The day will conclude with a short, two-hour training session aboard ship.

DAY 4: Arrival at gorgeous Amber Cove with tours available. The day will conclude with a short two-hour training session aboard ship.

DAY 5: As we head back out to sea, we will have a morning training session ending just in time for a great, relaxing lunch and networking session with group. Day 5 will end with an early evening session and group "round-table" discussion.

DAY 6: We'll arrive back in beautiful Miami.

During all days of scheduled training, you'll have the opportunity during breaks and after training to meet with our vendors and learn about new services and products that are available.

This cruise will be a great opportunity to obtain quality training and networking in a low-stress, enjoyable atmosphere with friends, family and fellow professional investigators.

We encourage you to take advantage of this unique opportunity now, as there will be limited space available and the cruise will fill up quickly. We will have more information to come regarding instructional courses being offered, presenters, exhibitors, and sponsorship opportunities. Stay tuned for more information in upcoming issues of PI Magazine or by visiting PICRUISES.COM or PIMAGAZINE.COM.

We look forward to coming together with you as we prepare to hit the high seas, so save the date! **PI**
