Performance Pediatrics Summer Camp 2019

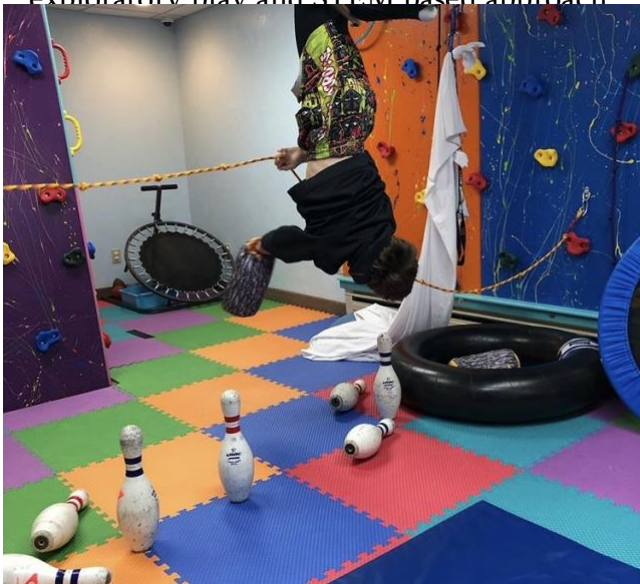

Hands on Learning and Academics

Our educational team is made up of two highly skilled teachers with extensive background in an educationally therapeutic setting.

Academics will focus on math, science, and language arts specific for each age group and level.

This year we will be combining our academics with hands on learning in an exploratory play and STEM based approach

Therapy

All therapies will be group based with our skilled physical, occupational, and speech therapists. This camp is for ALL children. Every child would benefit from sensory motor based activities, peer and social play and interactions, strengthening and conditioning, teamwork and sportsmanship, and problem solving play!

Occupational Therapy

Group participation in Occupational Therapy will focus on fine motor skills, sensory integration, social participation, cognition, and executive function.

Physical Therapy

Group based physical therapy services are important to your child's gross motor development. Your child will be having fun while improving coordination, strength, flexibility, and balance skills.

Speech/Social Skills Group

Social skills group will focus on social
