

THE CAMPUS SERIES

Care Packages for Troops

: Help organize care packages to send to our troops who are currently deployed overseas. Do your research to find out what can be sent overseas and what our troops really need/want. Organize homerooms to bring in donated items to create the care packages. Send the packages with encouraging notes from your building!

Be their Valentine.

: Gather names and addresses of residents living in local retirement communities. Distribute these names to volunteer students who are willing to write Valentine's Day cards. Write words of encouragement and tell them about your school pride and how much you appreciate their support in your community. Make their day when you deliver the Valentine's!
