8.1.a. One or more drum sections will be designated to play the lead (single-forte) by the Drum Major in charge of the performance. The standard practice shall be to designate the drum sections from the highest-graded bands in a given formation.

Rationale

1. Massed Bands Tunes:
 - a. The current tune list was adopted at the 1996 WUSPBA AGM using common tunes at that time.
 - b. The majority of WUSPBA bands today are consistently unprepared to play Barren Rocks and J.K. Cairns. These tunes shall be dropped from the list.
 - c. "Scotland The Brave" as a tune name stands on its own. The obscure reference of "Piper's Delight" is unnecessary and shall be deleted.
 - d. Larger WUSPBA contest venues feature multiple waves of massed bands and we need more tunes to play. The proposed tunes align us with fellow ANAPBA affiliates such as EUSPBA and PPBSO.

2. Lead Drummer Selection:
 - a. As currently written, this rule provides no guidance for what is actually the normal turnout in our association. Very few highland games in WUSPBA attract Grade 1 bands.
 - b. We often find more than one lead drummer assuming the role at massed bands, despite having a lead drummer or corps already designated. This causes musical conflict and confusion when they play different parts.
 - c. The new language proposed sets a clear expectation moving forward and improves musicality in our massed bands performances.
 - d. The addition as a new line item separates it from the tune list, adding visibility to this much-needed guidance.
