Non-Licensed Preschool

Circle of Friends Preschool

Combines child led explorations and teacher directed activities designed to enhance children's development in all areas of growth.

We provide opportunities for social interaction, physical activities, artistic expression, and hands on exploration. Through these experiences the children will learn to share, take turns, and listen to each other and respect other's ideas. The goal is for the children to become independent, build self-esteem and acquire the skills to succeed in Kindergarten. Additional focus will be on encouraging children's curiosity, creativity and imagination while being exposed to academics such as language and numeracy.

A strong emphasis on physical literacy is also part of this program.

To further enrich the children's learning the preschool will attend field trips, explore our community and participate in seasonal celebrations.

We welcome and encourage parent participation in the program.

Time for Twos

Offers children an opportunity to socialize and participate in group activities designed for their unique stage of development.

Through songs, stories, music and movement the children will be introduced to some basic concepts. Time for Twos will prepare children to have successful interactions with their peers such as taking turns and sharing – easing the transition to preschool.

The children will also have the opportunity to practice throwing, jumping and balancing to help with the development of children large muscles (gross-motor skills).

Time for Twos programs will have a gradual entry which may require parent participation until your child is comfortable in the preschool setting.
