

ROWAMERICA

Wakeless Launches

When it comes to on-the-water safety and reliability, teams couldn't ask for a better hull than one of our RowAmerica Wakeless Launches.

- We offer a 19' and 24' length launch to help accommodate different teams' needs.
- Our launches offer unparalleled stability along with the best acceleration, speed, and tight-turning radius on the market.
- We design our hulls for comfortable, focused coaching. They come with standard sliding seats and an automatic bilge pump. To further enhance the coaching experience, we offer optional features such as a bimini for sun protection and USB port for charging. *(More standard features and options listed below).*
- All of our launches are backed with our renowned lead time and service.
