

The World's Only Biodefense Indoor Air Protection System™

Providing the cleanest, viral-free indoor air.

Device	v1 Room
Air Flow	1,800 CFM
Noise Level	48-58 dB
Power Supply*	120V/60Hz
Max. Electrical Power	1,700 Watts
Unit Net Weight	153.5 lbs
Unit Box Weight	222 lbs
Unit Dimensions	70" h x 49" w x 31" d
Washable Pre-Filter	Yes
Biodefense Filter Lifespan	20,000 hrs
Warranty	2 yrs
FDA Approved for Sale	Yes
HEPA Filter Lifespan	18,000 hrs

*Designed to support all international power requirements

IVP's family of devices are **proven to destroy SARS-CoV-2, the virus that causes COVID-19 (99.999%), anthrax spores (99.98%) and other airborne pathogens instantaneously, in a single pass,** without affecting the ambient air.

IVP's **v1 venue** devices are proven to kill airborne viruses and provide the cleanest air in office buildings, schools, restaurants, hotels, gyms, places of worship, commercial spaces, airports and other mass transit venues.
