

Pump Station 6 Improvement Project

What is the purpose of this project?

- To replace station discharge piping, pumps, and controls.
- To improve site conditions and access to the facility.

Schedule

- **Anticipated Start:** December 2020
- **Anticipated Completion:** March 2021
- Crews will work Monday-Friday, from 7:00 a.m. - 5:30 p.m.

Construction Impacts

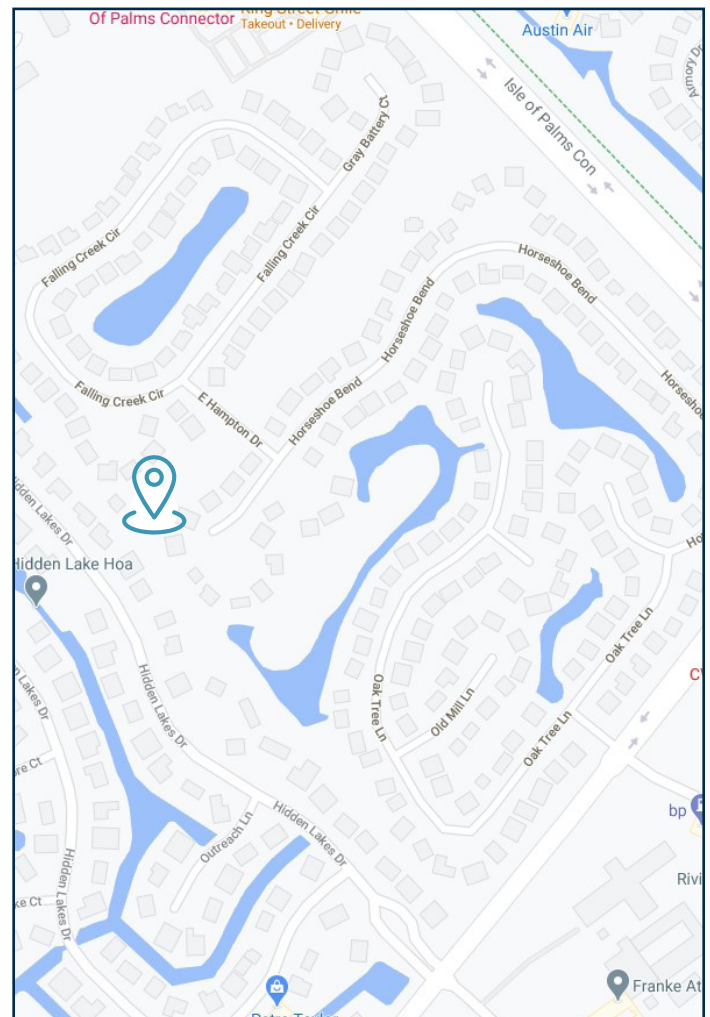

- Construction vehicles must use the Sweetgrass neighborhood entrance to access the project site (located in the rear of 1250 Horseshoe Bend).
- You can expect to see construction traffic primarily at the beginning and end of the crew's work schedule.
- Noise is expected periodically during project work hours.
- We will notify you in advance via email and/or robocall in the case of a service disruption. (Please verify that your MPW account contact information is current.)

Project Updates

- We will provide periodic updates for this project to your neighborhood/HOA point-of-contact as well as on our Nextdoor.com page.

Who should you contact at MPW?

- Mike Firestone, Project Manager, at 843.884.9626, or at mfirestone@mpwonline.com
- Jenna Lore, Construction Communications, at 843.884.9626 or at jllore@mpwonline.com
