

KALYANA

In Sanskrit, Kalyana means "beautiful" or "lovely". Kalyana wines represent a belief that through careful stewardship and preservation of our land, the land will return an abundance of beautiful fruit at harvest.

With every decision we make in farming our land, tending to our vines, and picking and blending our grapes, we do so in such a way that protects our beautiful Earth and produces high-quality wines.

Crafted through Certified Sustainable Vineyards & Winemaking, Kalyana wines offer you the comfort of knowing your wine choice makes a difference in protecting Earth as you enjoy each glass.

PINOT NOIR

FERMENTATION

Fermented in stainless steel tanks, pumped over twice a day.
