

CREAM GRIDDLECAKES.—Sweeten one-half cupful of sour cream with a little soda, add one cupful of sweet skimmed milk, one-half teaspoonful of salt and

flour for a batter the consistency desired, or about like heavy cream. Beat until perfectly smooth, and lastly stir in a heaping teaspoonful of baking powder. Bake at once on a hot griddle. One-third whole wheat flour may be used and is a wholesome variation. For waffles use this recipe but make the batter a trifle thicker.
