

Hot Weather Bread Recipe—This is fine, and so little bother. At dinner time boil and mash one or two potatoes; while cooling, soak one cake of yeast in as little water as possible; when soft, take three tablespoonfuls of sugar and mix all together; let rise until just before bedtime;

then take cold water and mix your bread and set to rise. In the morning form into loaves and let rise, and it will be ready to bake while eating breakfast. This recipe is from an old English baker. Be sure that the water is cold; this will make five loaves.
