

One Can Feed is an effort of Integrated Family Community Services (IFCS), a registered 501(c)3 nonprofit organization, serving the community of Western Arapahoe and Northern Douglas Counties for over 55 years.

Hosting a One Can Feed Food Drive is a great way to collect donations and inform your community about the need to alleviate hunger in our South Denver Neighborhoods. Organizers of Food Drives work in partnership with friends, neighbors, and associates to organize a collection of food through their community organization, business, or social groups.

There are many ways to collect food in a fun and fulfilling way. We are here to help you find the best option for you and your network of kind hearts.

A few popular examples are:

- Hold a food drive that directs people to bring donations to a central collection location. Simple signage and communications on how to support the cause are so easy. We can work together to arrange a delivery of all the items that are collected.
- Hold a food drive at a local grocery store to inform shoppers about food and non-food needs with flyers and word of mouth discussions to increase the shoppers' participation. Shoppers drop off items that they purchase when they leave the store. This option is a great way for a business or service group to be recognized in the community.
- Hold a food drive in your neighborhood or home development. This is a great project for youth, Scouts, or school projects. Going door to door with a donation bag or bringing food donations to a local event is a wonderful way to build community.

Hosting a One Can Feed Food Drive is a great way to see first-hand how much food IFCS needs and how community support is vital to meeting this need. We are happy to give your group a tour of our operation, when your gifts are delivered.

Easy Steps:

- Complete the **One Can Host** form on OneCanFeed.org
- An IFCS representative will contact you to find the best project option for your group.
- Arrange the delivery of your food drive collection.

If you choose the Grocery Store option, you will need to coordinate the following:

Don't worry, we can assist you on how to get started.

- Contacting the Manager of your local grocery store to secure approval to collect food on your chosen date.
- Recruit volunteers to make signs, hand out flyers, and bring awareness on drive day at the store's entrance.
- Transport collected items to IFCS on the date you selected; bringing along volunteers to help unload.

On behalf of the over 20,000 neighbors that are served through our Food Market, we greatly appreciate your support.

We are passionate about expanding our impact, by collecting food that will alleviate hunger and feed the most vulnerable of our clients. With your support, we can make a difference by surpassing our collective goal of providing 130,000 meals worth of fresh and non-perishable groceries in 2019.

ONE CAN, TWO CAN, WHO CAN, WE ALL CAN!
