MISSION
The Academy at Ocean Reef is a socio-economically diverse educational community. Students are educated in a nurturing, challenging environment that positions them for future leadership and success.

ABOUT OCEAN REEF CLUB
The history of Ocean Reef Club spans half a century where members have shared family traditions and experienced the unique opportunities available in the Florida Keys. Today, many Members, who themselves experienced some of their happiest childhood memories on The Reef, are providing the same for their own children. The Academy at Ocean Reef reflects the values that endure like everything else at Ocean Reef Club. The school encourages the pursuit of, and appreciation for excellence. It is a place where the entire community supports students and their school to encourage them to reach the highest standards of success.

ADMISSIONS
The Academy provides an excellent educational opportunity for any child that has access to the Ocean Reef community. Visit The Academy’s website at www.oracademy.org or call 305-367-2409 for a private consultation.

The Academy at Ocean Reef is an independent, nonprofit, coeducational day school that educates children in pre-school through grade eight.

WE MAY BE SMALL, BUT WE THINK BIG
Small classes and a low student-to-teacher ratio allow for individualized attention with strong emphasis on building self-esteem. Our intimate classrooms provide the right atmosphere to nurture curiosity, explore individual interests, and inspire a love of learning.

THE ACADEMY AT OCEAN REEF

The Academy was founded in 1989 by Ocean Reef Members seeking a high quality elementary school within Ocean Reef. Today, The Academy serves children of Members, children of employees of the Club, and Members’ employee’s children in preschool through grade eight. The Academy offers a creative and competitive academic program that takes advantage of all that The Reef has to offer, including sailing, fishing, snorkeling, golf and tennis. Located within the gates of beautiful Ocean Reef Club, The Academy is housed in a modern 23,000-square-foot facility on South Harbor Drive.

THE FACILITY INCLUDES:
• Eight classrooms
• A library, science lab, art, and music rooms
• 8,000-square-foot screened courtyard
• 2,000-square-foot air-conditioned multi-purpose gym and outdoor playground

Certified by The Florida Council of Independent schools (FCIS), the faculty is well-qualified, experienced, and dedicated to implementing the philosophy and goals of the school in a loving and nurturing environment.

WHY THE ACADEMY

The Academy offers a seasonal program for students transferring to The Reef during the winter months. This is a school-away-from-school program that allows the children and grandchildren of members to spend time at Ocean Reef while keeping up with their studies.

The Academy welcomes visiting students who often bring the curriculum from their home school for stays as short as one week but sometimes as long as a semester. Home schools often report that the visiting Academy students demonstrate surprising academic growth and a refreshed outlook upon their return. The year-round students extend a warm welcome and immediate friendship to these visitors, especially those that return year after year.

EDUCATION
• 28 years of leadership in education from Preschool to 8th Grade
• Average teacher to student ratio of 5:1
• Traditional core subjects supported by Arts, Music and Physical Education in every grade
• STEAM and iPad program for all grades
• Spanish language instruction beginning in Preschool
• Afterschool sports program led by Ocean Reef Club team: tennis, pickleball, golf and swimming

COMMUNITY
• Excellent education inside one of the safest communities in the United States
• Diverse student body and faculty
• Ocean Reef Community Foundation award recipient
• Afterschool childcare

BEYOND OCEAN REEF
• Student driven service projects in local communities
• Experimental learning trips ranging from local marine biology laboratories to Washington, DC government tours
• Academic guidance for post-graduation schools including boarding, private and public opportunities
