

24th. Annual International Conference of the Egyptian Fertility & Sterility Society (EFSS)

Marriott Zamalek Hotel, Cairo, Egypt.

November 29-30th., 2018

Day 1: Thursday November 29 th ., 2018				
Registration	08.00-09.00			
Opening	09.00-09.15			
Plenary I	09.20-11.50	Chairpersons: TBC		
	09.20- 09.45	40 years after Louise Brown: Development of Assisted Reproductive Technologies (ART) Klaus Diedrich, Germany		
	09:45-10.10	Aging and risk factors on infertility Felice Petralgia, Italy		
	10.10-10.35	Endocrine disruptors: new players in infertility Charles Sultan, France		
	10.35-11.00	Ovarian stimulation strategies in IVF Ioannis Messinis, UK		
	11.00-11.25	Increasing ART pregnancy rates by Preimplantation Genetic Diagnosis Aneuploidy Testing. Joe Leigh Simpson, USA		
	11.25-11.50	The use of androgens or androgen-modulating agents in poor responders undergoing in vitro fertilization Basil Tarlatzis, Greece		
Satellite symposium				
Coffee Break	11.50-12.20			
Plenary II	12.20-14.50	Chairpersons: TBC		
	12.20-12.45	New trends in IVF research of Stem Cell derived gametes, genomic editing in embryos and Nuclear transfer. Anna Veiga, Barcelona, Spain		
	12.45-13.10	The emerging importance of endoplasmic reticulum stress (ER stress) in ovarian function Yutaka Osuga, Japan		
	13.10-13.35	Immunology and Reproduction Richard Kennedy, UK		
	13.35-14.00	Surgery to improve fertility Gabriel de Candolle, Switzerland		
	14.00-14.25	New trends for old practices: time to revive the art of tubal surgery Mourad Seif, UK		
	14.25-14.50	Retroperitoneal anatomy; what a gynecologist needs to know? Mohamed Mabrouk, Italy		
Coffee Break	14.50-15.15			
Parallel Sessions	15.15-16.30	PCOS	Andrology & ART	Ovarian stimulation
	15.00-15.15	Assisted reproduction for PCOS- are the results different? Duru Shah, India	How and Y of male infertility- Azoospermia; what next? Ameet Patki, India	What is the preferred protocol in PCOS women undergoing ovarian stimulation for IVF Basil Tarlatzis, Greece
	15.15-15.30	Nutritional management of PCOS Aboubakr El Nashar, Egypt	Male contribution for recurrent implantation failure Medhat Amer, Egypt	Is OHSS disappearing? Paul Devroey, Belgium

	15.30-15.45	Laparoscopic ovarian drilling for PCOS; an update Hatem Abou Hashem, Egypt	Insulin resistance and male infertility Ragaa Mansour, Egypt	Modern management of OHSS Khalidoun Sherif, Jordan
	15.45-16.00	Inducing ovulation in PCOS patients through an office transvaginal ultrasound procedure- a case study Abdel Maguid Ramzy, Egypt	IUI versus IVF as a first line treatment for unexplained infertility Bassam El Helw, Egypt	IVF for poor responder: mild versus conventional ovarian stimulation an ASRM guideline Mohamed El Sherbini, Egypt
	16.00-16.15	Recent management of PCOS in adolescents Amal El Shahat, Egypt	Mineemeneenmeni Moo; what are sperms really doing? Sahar Afifi Eisa, Egypt	Double stimulation protocol (DuoStim) might improve pregnancy rate in poor responders, a cohort prospective study. Mahmoud H. Ibrahim, Egypt
Break				
	16.30-16.45			
Parallel Session	16.45-18.00	Pregnancy outcomes	Endometrial preparation and Embryo replacement	Follicular development markers and ovarian reserve
	16.45-17.00	Why are birth defects increased in ART? Joe Leigh Simpson, USA	Chronic endometritis (CE): implantation impairment and beyond. Dominique De Ziegler, France	Gonadotrophin surge attenuating factor (GnSAF); where are we now? Ioannis Messinis, UK
	17.00-17.15	New insights in the development of complete hydatidiform mole Eric Jauniaux, UK	Endometrial preparation protocols for frozen embryo transfer Yakoub Khalaf, UK	Discordance between Antimullerian hormone (AMH) and antral follicular counts (AFC); causes and significance Abou Bakr El Nashar, Egypt
	17.15-17.30	Pregnancy and live birth rate through surrogacy in assisted reproductive technology (ART): experience of an IVF center in Lagos Oladapo Ashiru, Nigeria	Embryo replacement without ultrasound guidance; a simple and effective technique Hassan el Maghraby, Egypt	Follicular fluid concentration of vascular endothelial growth factor, Inhibin A and Inhibin B in IVF cycles: Are they markers for Ovarian response and pregnancy outcome? Majeda Al-Azemi, Kuwait
	17.30-17.45	A double-blind, placebo-controlled, single center randomized trial study of the effectiveness of reducing the incidence of preterm birth in IVF/ICSI twins using natural progesterone starting from the first trimester Mona Aboulghar, Egypt	Oocyte retrieval-Et simulator; a step towards competence and proficiency in ICSI procedures Yasser Younis, Egypt	Factors influencing late follicular progesterone elevation during controlled ovarian stimulation for in vitro fertilization Sherif Samak, Egypt
	17.45-18.00	The novel protocol for management of IUGR Amr Adeel, Egypt	Modified luteal phase support after GnRH α trigger Omar El Megharbel	
Dinner				
	18.15- 19.00			

Day 2: Friday November 30th. 2018				
Plenary III	09.00-12.00	Chairpersons: TBC		
	09.00-09.25	Occupational hazards of the oil and gas industry and the management; impact on reproductive health, Oladapo Ashiru, Nigeria		
	09.25-09.50	Epigenetics and human reproduction update Hassan Nasrat, Saudi Arabia		
	09.50-10.15	Progesterone in human reproduction Eric Jauniaux, UK		
	10.15-10.40	Is the luteal phase complex? Paul Devroey, Belgium		
	10.40-11.05	Endometrial scratching; time to reconsider the evidence Yakoub Khalaf, UK		
	11.05-11.30	The use and abuse off LMWH in IVF Khalidoun Sherif, Jordan		
	11.30-11.55	A Fascinating story with no end Duru Shah, India		
	12.00-12.30	Friday prayers & Coffee Break		
Plenary Session IV	12.30-15.00	Chairpersons: TBC		
	12.30-12.55	TBD Gamal Serour, Egypt		
	12.55-13.20	Menopause: how long to treat and how to adapt the hormone therapy to the overcoming needs Andrea Genazzani, Italy		
	13.20-13.45	Have we reached the cross roads in the management of PCOS? Ameet Patki, India		
	13.45-14.10	New guidelines for PCOS, is it new? Mohamed AboulGhar		
	14.10-14.35	Ovarian stimulation for the ART; the time they are changing Dominique De Ziegler, France		
	14.35-15.00	Uterine Fibroids Zaid Kilani, Jordan		
Coffee Break	15.00-15.30			
Parallel Sessions	15.30-16.45	Endometriosis & adenomyosis	Gynecology	Fertility and gynecological surgery
	15.30-15.45	Conservative management of uterine adenomyosis Hossam Thabet Salem, Egypt	Adolescent amenorrhoea; management Charles Sultan, France	Surgical approaches in infertility management Emad Darwish, Egypt
	15.45-16.00	Medical management od adenomyosis Utaka Osuga, Japan	Diagnostic dilemmas in reproductive medicine Shawky Badawy, USA	Laparoscopic and hysteroscopic interventions of endometriosis associated with Mullerian anomalies in infertile women Afaf Ismail. Egypt
	16.00-16.15	Pelvic floor muscle and endometriosis Mohamed Mabrouk, Italy	The role of epigenetics in infertility; updated concepts Mohamed Kamel Alloush, Egypt	Complications of hysteroscopy; how to avoid Ayman Assaf, Egypt
	16.15-16.30	Endometrioma- the doctor's dilemma Khattab Abdel Aleem, Egypt	Life style factors and infertility Mohamed Salama gad, Egypt	Vascular complications during obstetric and gynecological surgery Mahmoud Salah, Saudi Arabia

	16.30-16.45	Large ovarian endometrioma; three-step procedure or combined excisional and ablative surgery Hisham Abdel Fattah Salem, Egypt	Factors influencing copper intra-uterine device sexual acceptability in Egypt Hanaa Aly, Egypt	A safer total hysterectomy technique in respect to the conventional hysterectomy technique in benign uterine pathologies Ayman Shehata Dawood, Egypt
Break	16.45-16.50			
Parallel Sessions	16.50-18.00	Infertility management	Risk management and clinical governance	ART improving outcomes
	16.50-17.05	Results of various methods of infertility treatment Richard Kennedy, UK	Are we step up or step down regarding ethical guidelines? Mohamed Walaa El Deeb	Optimization of ART outcome: updated evidence and best practice Iman El-Gindy, Egypt
	17.05-17.20	DHEA treatment and ART: when to think about and how to manage Andrea Genazzani, Italy	The role of primary care in in obstetrics and gynecology Elsaid Abdel Hady, Egypt	Decreasing time to live birth with GnRH antagonists Hossam Fahim, Egypt
	17.20-17.35	Management of infertility in women with only one tube Tarek Al-Husseini, Egypt	The Hidden cost of infertility Mahmoud Shawer, Egypt	Evidence based reproductive medicine; does it make a great sense Salah Rasheed, Egypt
	17.35-17.50	The impact of maternal age on ICSI cycle outcome parameters Ashraf Abou Ali, Egypt	Lost in guidelines Amr El-Shalakany, Egypt	Oral medications including clomiphene citrate and aromatase inhibitors with gonadotrophins for controlled ovarian stimulation in women undergoing IVF Ayman Nady, Egypt
	17.50-18.05	Noninvasive tests for diagnosis of pelvic endometriosis Mohamed Abdel Salam, Egypt	Patient rights and responsibilities Mahmoud Seksaka	Will polar body removal during ICSI affect the blastulation rate and embryo quality? Ahmed Saad, Egypt
Closing remarks	18.05-18.15			
Dinner	18.15-19.00
