Discipline Policy

Alphabet Land Learning Center has three situations when disciplinary action is taken:

- If a child hurts themselves or others
- If a child belittles or damages the feelings or work of others
- If a child does not cooperate with adults who are trying to cooperate with him/her

Discipline problems are avoided whenever possible by:

- Having a well organized room
- Having a well organized routine
- Having a calm, considerate staff
- Having clear, consistent standards and expectations
- Informing children what is coming next and giving them time to finish what they are doing
- Offering a wide variety of activities
- Offering opportunities everyday for children to choose their own indoor and outdoor activities, friends, space, and pace

When an adult must intervene, the following procedure is followed:

- Give each child an explanation of why an adult is entering the situation
- Encourage each child to express their feelings, even if negative, but in words only
- Give clear, simple, positive, specific, firm, and polite directions
- If necessary, direct child(ren) to another activity
- As a last resort, remove the child from the group. He/She is then given the responsibility of deciding when to return
- No child is humiliated or subject to discipline that deprives him/her of rest, play, toileting or food. Spanking is not allowed. The goal of our method of discipline is to help the child control his/her own behavior

Immediate causes for expulsion include, but are not limited to:

- The child is at risk of causing serious injury to other children or him/herself
- Uncontrollable tantrums/angry outbursts
- Ongoing physical or verbal abuse towards staff or other children
- Excessive biting
- Parent threatens physical or intimidating actions towards staff members or children
- Failure to comply with any part of the enrollment agreement
- Parents exhibits verbal abuse towards staff or children
- If director determines that the center is unable to meet the family's needs or expectations
- Failure to complete required forms including the child's immunization records

Alphabet Land Learning Center is concerned for every child's well being. If it is determined that a child is creating an environment not suitable for learning or is destructive, disruptive, or uncontrollable, Alphabet Land Learning Center reserves the right to terminate the child's care.

By signing below, I indicate that I fully understand and accept Alphabet Land Learning Center's Discipline Policy.

During the 2009 legislative session, a new law was passed that requires child care facilities, family day care homes and large family child care homes provide parents with information detailing the causes, symptoms, and transmission of the influenza virus (the flu) every year during August and September.

Please complete and return this portion of the brochure to your child care provider, in order for them to maintain it in their records.

What should I do if my child gets sick?

Consult your doctor and make sure your child gets plenty of rest and drinks a lot of fluids. Never give aspirin or medicine that has aspirin in it to children or teenagers who may have the flu.

CALL OR TAKE YOUR CHILD TO A DOCTOR RIGHT AWAY IF YOUR CHILD:

- Has a high fever or fever that lasts a long time
- Has trouble breathing or breathes fast
- Has skin that looks blue
- Is not drinking enough
- Seems confused, will not wake up, does not want to be held, or has seizures (uncontrolled shaking)
- Gets better but then worse again
- Has other conditions (like heart or lung disease, diabetes) that get worse

How can I protect my child from the flu?

A flu vaccine is the best way to protect against the flu. Because the flu virus changes year to year, annual vaccination against the flu is recommended. The CDC recommends that all children from the ages of 6 months up to their 19th birthday receive a flu vaccine every fall or winter (children receiving a vaccine for the first time require two doses). You also can protect your child by receiving a flu vaccine yourself.

What can I do to prevent the spread of germs?

The main way that the flu spreads is in respiratory droplets from coughing and sneezing. This can happen when droplets from a cough or sneeze of an infected person are propelled through the air and infect someone nearby. Though much less frequent, the flu may also spread through indirect contact with contaminated hands and articles soiled with nose and throat secretions. To prevent the spread of germs:

- Wash hands often with soap and water.
- Cover mouth/nose during coughs and sneezes. If you don't have a tissue, cough or sneeze into your upper sleeve, not your hands.
- Limit contact with people who show signs of illness.
- Keep hands away from the face. Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose, or mouth.

When should my child stay home from child care?

A person may be contagious and able to spread the virus from 1 day before showing symptoms to up to 5 days after getting sick. The time frame could be longer in children and in people who don't fight disease well (people with weakened immune systems). When sick, your child should stay at home to rest and to avoid giving the flu to other children and should not return to child care or other group setting until his or her temperature has been normal and has been sign and symptom free for a period of 24 hours.

For additional helpful information about the dangers of the flu and how to protect your child, visit: <http://www.cdc.gov/flu/> or <http://www.immunizeflorida.org/>

What is the influenza (flu) virus?

Influenza (“the flu”) is caused by a virus which infects the nose, throat, and lungs. According to the US Center for Disease Control and Prevention (CDC), the flu is more dangerous than the common cold for children. Unlike the common cold, the flu can cause severe illness and life threatening complications in many people. Children under 5 who have the flu commonly need medical care. Severe flu complications are most common in children younger than 2 years old. Flu season can begin as early as October and last as late as May.

How can I tell if my child has a cold, or the flu?

Most people with the flu feel tired and have fever, headache, dry cough, sore throat, runny or stuffy nose, and sore muscles. Some people, especially children, may also have stomach problems and diarrhea. Because the flu and colds have similar symptoms, it can be difficult to tell the difference between them based on symptoms alone. In general, the flu is worse than the common cold, and symptoms such as fever, body aches, extreme tiredness, and dry cough are more common and intense. People with colds are more likely to have a runny or stuffy nose. Colds generally do not result in serious health problems, such as pneumonia, bacterial infections, or hospitalizations.

The CCFP provides reimbursement for healthy meals provided and served to your baby while in our care. Our child care staff have been trained in infant feeding practices and offer age appropriate foods for your baby.

We welcome breastfed babies and support and encourage moms to continue breastfeeding when returning to work or school. For formula fed infants, we offer the iron-fortified infant formulas listed above to babies in our care.

To qualify for reimbursement, infant meals and snacks must include, at a minimum, the following food components at appropriate age and developmental stages:

- ~ Breastmilk or iron-fortified infant formula (or a combination of both)
- ~ Iron-fortified infant cereal
- ~ A variety of texture-appropriate vegetables and fruits such as sweet potatoes, bananas, and peas.
- ~ A variety of texture-appropriate meat and meat alternates such as chicken, yogurt, and cheese.
- ~ Bread, crackers, Florida WIC-approved ready-to-eat cold cereals

Please be aware this child care facility:

- ~ Will offer all food components to each infant that is developmentally ready to accept them. Parents do not have to bring in any foods for their children.
- ~ Can feed solid foods to infants in a bottle only when a medical statement is provided.
- ~ May request parents to supply clean, sanitized and labeled bottles on a daily basis.
- ~ Requires the parent to label bottles of breastmilk or formula and containers of food that they provide with baby's name, date, and time of bottle or food preparation.
