

Solutions for the High Output Laundry

INTELLIGENT DESIGN. Sea-lion ZDGY automatic uniform folder features sensors and folding plates that accurately and precisely fold uniforms to exact specifications. Intelligent multi-lingual touch screen control has a wide variety of options to meet the demands of custom folding requirements.

Intelligent Uniform Folder

- Full automation and easy operation for a wide variety of folding functions. Return conveyors with multiple location outputs make for easy customization into customer specific requirements.
- Units can be used as stand alone or seamlessly integrated into automated systems.
- Folding knives press garments firmly for consistently crisp results.

- Transfer accuracy is gaged by multiple photoelectric sensors over synchronous belts and belt wheels controlled by a variable frequency speed reducer.
- Accurate stacking and transfer of goods to the finishing station is coordinated by a combination of metal plates, air cylinders and photoelectric sensors.
