EOI Process

Following a review of EOI's, Into Our Hands may invite organisations to full application to properly consider a project for funding.

Organisations that proceed to application stage from the EOI process will enter a negotiated grant process rather than competitive round. This means that the Board and/ or Executive Officer may follow up on the EOI process for more information and may work with you closely to determine the project and the Foundation role. Given these projects will be larger and more long term in nature, the Foundation will support you through a negotiated grant process if the project meets eligibility requirements and has Board support.
