

### **Paid Club Elementary Options**

Specific Days, Grade Levels & Payments available for  
each paid club below

Also available on master club schedule

#### **FSA Spirit Squad**

The spirit squad will consist of a group of students that want to cheer for FSA and the wonderful students that are here! Our club will practice weekly to learn new cheers and chants for upcoming events. For example, the spirit squad will pep up the school and cheer on some home sporting events, club accomplishments, and any special awards given. We can't wait to join together this year to create an energetic, supportive squad for FSA!

\$75 per semester (3:30 to 4:30) (Monday)

#### **The Coder School**

"At theCoderSchool, we want to do more than just teach coding. We want aspiring coders to use their new found passion as a stepping stone to thinking outside the box, as a way to channel their ideas in a creative way and most importantly, to have fun.

Our core business is our weekly after-school programs, run throughout the year. Coding takes practice, and we believe getting kids to code consistently throughout the year is the only way they'll really learn to code!

Our programs are for students at all skill levels, ages 7-18, and progress through a broad array of languages from Scratch to Python, Javascript, Java and much more. "

\$329 per semester (3:20 to 4:20) (1-2 Monday, 3-5 Wednesday)

#### **Ivy Bridge Debate**

"Ivy Bridge Academy's After-School Debate program offers a chance for students to learn and engage with current events through the activity of Debate. Students enhance their research skills, critical thinking, organizational skills, persuasion tactics, and information processing by learning about both sides of an issue and being able to persuasively argue for either side. Debate helps students improve their ability to form balanced, informed arguments and to use reasoning and evidence. Students who participate in our Debate program will leave with a sense of accomplishment, newfound confidence, and a skill set that will help them through the rest of their schooling and even into adulthood. Direct tangible benefits from our program include: increased confidence speaking in front of others, improved writing skills, greater vocabulary, better information-processing, and more open-minded critical thinking about some complex topics. A main focus will be on

creating and delivering persuasive speeches in front of their peers. Your child should see some direct tangible benefits from our program such as increased confidence speaking in front of others, improved writing skills, greater vocabulary, better information-processing, and more open-minded critical thinking about some complex topics. It's a great opportunity for all students!"

\$300 Fall Semester, \$320 Spring Semester for elementary program  
(priced by # of classes) (3:20 to 4:20) (Thursdays)  
(See IBA flyer on our newsletter for specific class dates)

### **Hands-On Music (K-2)**

For families who feel that their child may not be ready to begin Private Lessons, Hands-On Music provides a fun setting to develop music-reading, interval ear-training, motor skills, and etiquette necessary for ensemble music. We will spend the first three weeks focusing on notation-literacy, identifying musical elements by sound and staff-reading, and improving motor coordination. Our following units will be Hands-On, with the goal of developing fundamental skills for Strings, Voice, and Percussion. This club is an ideal springboard for young students with an interest in music, who have not yet begun an instrument.

\$22 per class plus \$40 registration fee (Monday)

### **Group Guitar Club (3-5)**

As Classroom Classical Guitar offerings continue to grow across the United States, we are excited to offer Group Guitar to FSA students for the 2019-2020 school year, using the Austin Classical Guitar Curriculum. Austin Classical Guitar Curriculum has been implemented in hundreds of schools throughout North America, South America, Africa, and Europe over the past decade and students love it, the world over. Our experienced Classical Guitarists will guide students through this cutting-edge curriculum, along with our own supplemental materials. In most cases, students are able to play through the first piece of music by the end of only ONE or TWO classes!

\$22 per class plus \$40 registration fee (Thursday)

### **Grounded Kids Yoga (1-5)**

If you want to understand how to:

ground when you feel unsettled  
energize when feeling sluggish  
focus when you are distracted

take the high road of responding instead of reacting impulsively to others  
who push your buttons  
own your power and use it wisely

then join our yoga club and elevate yourself and others in your home community.

\$195.00 Classes begin on Tuesday, September 3rd. 13 week session, until Winter Break.  
(Tuesdays)

### **Mandarin Chinese Language**

This club is open to students in kindergarten through 5th grade and open to any levels.

A maximum of 12 students will be accepted.

\$350 per semester (Monday-Friday)

### **French Language**

This class will not feel like school or learning a language! Your child will learn some of the French language and culture by playing interactive games, role playing and working on creative projects. Through fun, artistic, playful, and sometimes physical activities, the instructor will teach the grammatical knowledge necessary to encourage expression in French. The class is a fun and entertaining program designed to expose your child to the French language through various activities. Your child will hear and learn French common expressions, songs, as well as start basic writing and reading activities. The curriculum focuses on fluency, comprehension and expression, adding more vocabulary and expressing opinions. There will be no homework assigned.  
\$350 per semester (Monday-Friday)

### **Hindi Language**

Offered through the Language Institute of Atlanta

“Our Hindi classes will teach writing, grammar and conversational skills to your child and progressively lead him/her to fluency. The class is led by a native teacher of Hindi”

\$450 per semester if enough students enrolled (Monday-Friday)

### **E2YoungEngineers (1-4)**

A program designed to introduce students to theoretical and practical aspects in the fields of software engineering, math, and entrepreneurship. These clubs help with advanced algorithmic thinking, develop procedural thinking, improve self-confidence and sense of self-efficacy and develop critical and creative thinking skills.

\$325.00 per semester (Tuesdays, Thursdays)

### **Chess Atlanta (K-5)**

We welcome children of all levels from Kindergarten to Fifth grade. Students will learn openings, tactics and strategic thinking skills. Our goal is to create a positive learning environment to make sure children learn and improved the game while having a fun time in the class. Classes will be lead by International Master, Carlos Perdomo along with other Chess Atlanta coaches.

\$210.00 per semester (Friday)
