

Medical Directorship Spotlight: Transforming Patient Care

As your Partner in Care, we can provide high-caliber medical directorship teams to help transform care in your facility or community, 24-7, weekends and holidays.

MEET A FEW LEGACY CARE MEDICAL DIRECTORS

OCTAVIO CIEZA, DO

Infectious Disease Specialist & COVID-19 Nursing Home Medical Director

When COVID-19 began spreading across the globe, Dr. Cieza was serving as medical director in a 140-bed nursing home in North Carolina. As the pandemic worsened, that nursing home was converted solely for COVID-19 patients. Through his leadership, the facility had a zero mortality rate due to complications from COVID-19. Board-certified in infectious disease and internal medicine, Dr. Cieza also practices with UNC Health Care.

DANNY FELTY, MD

Governor Appointee to COVID-19 Long-Term Care Facility Task Force

A family medicine physician, Dr. Felty is a medical director for several skilled nursing facilities. He also is the Chief Medical Officer at Legacy Care. Renowned for his expertise in post-acute care, Dr. Felty was appointed to serve on the Governor of Virginia's COVID-19 Long-Term Care Facility Task Force. A mentor for aspiring physicians, Dr. Felty is a didactic lecturer through a Virginia Commonwealth University School of Medicine & Bon Secours Health System St. Francis Family Medicine Residency partnership.

Your Partner in Care: Nights, Weekends & Holidays – 24-7

SAJID NAVEED, MD, MRCP
Chronic Kidney Disease Program Founder

Within one year of joining a 190-bed rehabilitation hospital as its medical director, Dr. Naveed began developing a new program for patients with Chronic Kidney Disease (CKD). Board-certified in Internal Medicine and Kidney Disease and Hypertension, he is training staff and creating program protocols aimed at reducing symptoms, decreasing disability and promoting independence for CKD patients. Among other services and therapies, the CKD program will provide diabetes management, health coaching and dietary education, respiratory therapy management of associated co-morbidities.
