

Downloading & Installing Zoom

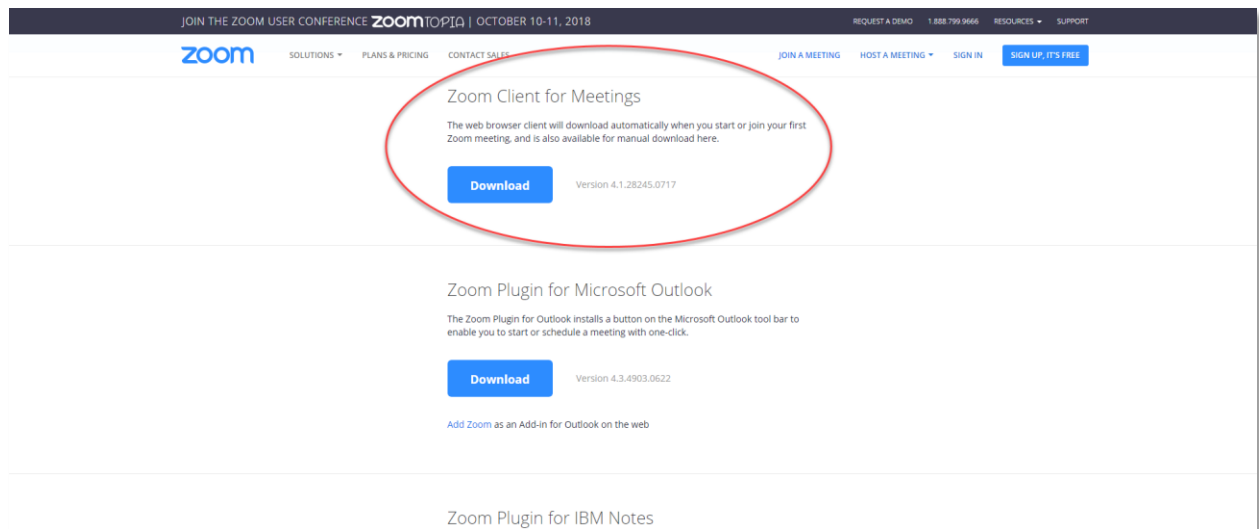

1. Open your web browser and navigate to <https://zoom.us/>
2. Locate the **Resources** menu option at the top right of the screen and click on it

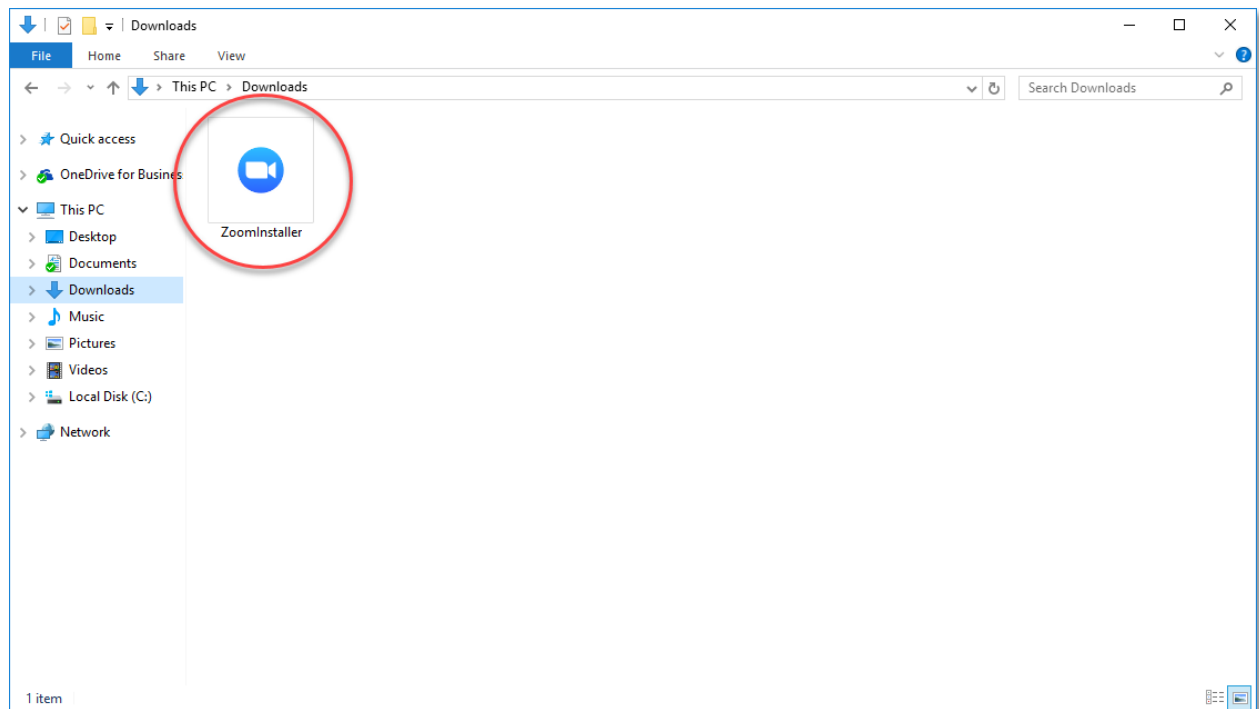

3. In the drop down menu, locate **Download Zoom Client** and click on it (same file for both PC & Mac)

4. Once the page is loaded, locate the **Zoom Client for Meetings** option at the top of the page and click **Download**

5. Locate the file **ZoomInstaller**, which will typically be in your **Downloads** folder, double click on it and follow the on screen instructions (image below is from PC)
