Recruiter Terminology By Stage

- **Leads** - those whom we have interest in working with but have not yet reached out to them. They remain in this status until we have deduped and validated them as a viable prospect (no negative feedback in a year etc.)
- **Prospects** - contacted
- **Interested** – Prior to review
- **Candidate** - we decide to send an assessment
- **Vetted** – once they've passed the Assessment
- **Fully Vetted** – once they pass the recruiter phone screen
- **Scheduled for onsite** – Invited to the onsite and have accepted the invitation
- **Inclined to Hire** – At the event, after the interviews and debrief, the candidate will be designated with this term and will move forward in the process
- **Offers** – When offered an actual job based on a real job requisition (not a talent pool req)
- **Declines** – If they declined our offer of employment
