Motivation Letter - 1

Dear Sir or Madam:

I am writing this letter to express my interest in the Stonefield Tennis Scholarship at Frankwook University. As a senior in high school that is aspiring to go to college in the sciences, this scholarship would give me the opportunity to not only pursue a higher education but continue to participate in the sport that I know and love.

I am currently in my last year at Browndale High School. MY cumulative GPA is 3.87, demonstrating my high level of commitment to academic excellence. I am enrolled in all honors and AP Courses, and have accumulated 23 college credits through AP tests alone. I hope that this shows that I am committed and ready to achieve at a college level academically.

In addition to my academic achievements, I am also a skilled tennis player. I started playing as part of the Junior Varsity team as a freshman, and have played for the Varsity team since then. Our team has been named county champion for all four consecutive years. I greatly enjoy the game and hope to be able to continue playing throughout my tenure in college. Despite my heavy courseload during high school, I was able to balance both academics and sports, and have been a recipient of the Excellence in Academics and Athletics award at my school every semester so far. I am confident that in college, I will be able to continue to uphold my academic standards while playing at the top of my game and making Frankwook proud.

I am attracted to Frankwook University because it is a school renowned for its rigorous science program. I aspire to become a medical researcher, and I know the resources available to me in Frankwook would be difficult to find anywhere else. Additionally, it is located close to my house, where I can easily return to take care of my younger brothers while my father is away. The Stonefield Tennis Scholarship would enable me to attend college and pursue my dreams.

Thank you for considering my application. I look forward to hearing from you soon.

Yours faithfully,

Mary Joseph
