

I can only imagine what it was like to live ... during and after the Civil War. With the help of My Beautiful Life Story ... we have created a "LIVING MEMORY BOOK...." I enjoy being able to see ALL my historical family photos and the videos we created from those photos from the comfort of my computer and even on my SMART TV. You made it possible for me to get it done.

Homer Speer Jr, Banks, Oregon

I forwarded my life story on a drive to my son in Portland so he could enjoy the past. There were more than a hundred photos, many of them vintage from my childhood in Holland during WWII. I am grateful to have met Zoe. She has the technology to do "that high tech digitizing." I have no idea how she does that: takes over a hundred photos and puts them on a thumb drive no bigger than a large pill.

You help families & organizations to collect, preserve and display their history, their stories. Your creative ideas to decoupage photos on a hand me down table gave my family so much pleasure. Our church's 125th anniversary video using pictures, music and visuals will be a great way to celebrate over a century of ministry. You introduced the anniversary committee to a whole new world of getting our story out. So again, Thank you. You're the best.

Zoe recently scanned and copied photos for me. I am really tickled with what she did & I want her to scan more photos. I'm just so pleased!
