This novel Coronavirus-COVID 19 has reminded us that we are all connected, whether near or far. To help lower the curve in the growth of this pandemic, many locations have issued "stay at home" orders.

We miss seeing one another and some of us are getting a little stir crazy, so ... send us photos of your smiling faces and let us know how you are spending your days.

Every week or so, we'll send out a copy of Blessings so we can see how we are united as one community. Help us stay connected by sharing your photos, favorite scripture passages, favorite quotes, favorite images. We ARE in this together!
THANK YOU!

Sr. Trish Villarreal shared with our Facebook friends that she is part of a project to sew 8,000 masks for first responders. Sr. Trish put out a request to our Facebook friends for folks to help her cut out the pattern so she could focus on sewing. The response was heartwarming. Also helping with sewing of mask is Sr. Lynn Schafer and Covenant Companion Mary Krystinak. Let us know what you are doing in this time of “physical” distancing.

IN THE HEART OF THE WORLD

Globally, this pandemic is impacting all of God’s people. Our lives and routines have been disrupted from simple tasks such as grocery shopping to how we honor momentous occasions. Physically distanced as we are, how can we shift our attention away from the impact on our own lives toward the lives of our sisters and brothers?

Tell us how you are...

• Staying in touch with family, friends, and colleagues?
• Expressing gratitude to the many people serving us during this crisis?
• Expressing kindness and compassion?

Send your response to: connect@wfsisters.org
