

End-cap Booth

An End-cap configuration is essentially an in-line (linear) booth placed in the position of a Peninsula or Split Island. For shows that have Line-of-Sight rules and not cubic content, this configuration must follow the dimensions below. For shows that have cubic content rules, the space may be used without restriction. (NGWA has line-of-sight rules, thus end-cap booths must follow the dimensions specified below).

Dimensions

End-cap Booths are generally 10ft (3.05m) deep by 20ft (6.10m) wide. The maximum back wall height allowed is 8ft (2.44m) and the maximum back-wall width allowed is 10ft (3.05m) at the center of the back-wall with a maximum 5ft (1.52m) height on the two side aisles. Within 5' of the 2 side aisles, the maximum height for any display materials is 4'.
