

Postdoctoral Training Position: Study and Assess the Microenvironment

Posted July 2021

A postdoctoral training position is available in the laboratory of Dr. Emina Huang in the Department of Surgery at UT Southwestern Medical Center to study and assess the microenvironment, both cellular and extracellular, associated with colorectal cancer development and metastasis. Our laboratory <https://www.utsouthwestern.edu/labs/huang/> has several exciting projects related to colorectal cancer, early onset colorectal cancer, the tumor microenvironment, colitis-associated cancer, chronic inflammation and cancer. The mission of our laboratory is to understand how inflammation contributes to the pathogenesis of colorectal cancer so that we can prevent initiation and progression.

Candidates must hold a Ph.D. and/or M.D. degree. Experience in cancer biology, genetics, high resolution transcriptomics/epigenomics and analyses, inflammation biology, histology, tissue culture, and murine models leading to publication in peer-reviewed journals is recommended.

Information on our postdoctoral training program and benefits can be found in our [Postdoc Handbook](#) or at <http://www.utsouthwestern.edu/postdocs>.

Interested individuals should send a CV, statement of interests, and a list of three references to:

Emina Huang, PhD

Executive Vice Chair of Research
Professor, Colon & Rectal Surgery
UT Southwestern Medical Center
5323 Harry Hines Blvd.
Dallas, TX 75390-9169
