Our NEW on road 4 wheel LSV

A new and improved

**WESTWARD**

Industries

## What is an LSV?

A Low-Speed Vehicle is a street-legal, four-wheeled electric vehicle with a top speed of 25 mph, and a gross vehicle weight rating of less than 3,000 lb. Most states allow LSVs to be driven on roads marked 35 mph or less. However, please check your state for applicable laws.

### Benefits of our Standard Lithium Ion versus industry's standard Lead Acid or AGM:

- Maximum range per KW – nearly twice the battery energy is used
- Long lasting, 2-3 times longer battery Life
- Much lighter weight than Lead Acid
- Excellent acceleration
- Easy and flexible charging
- Chargeable at any battery level
- On board BMS balances battery life after each charge
- High functioning in cold weather
- No regular maintenance required!

**INTERIOR**

Large electronic display with speedometer, odometer, fuel gauge and more. Including rear back up camera on display, cup holders, 12 volt plug. Optional; rear sensors, doors, and right hand drive.

**INDUSTRIAL GRADE BUILD**

Aluminum Flat Deck, 4x5 feet with optional clamping side walls. 2.5" steel roll bar chassis. Automotive grade brakes, suspension, and frame. Long lasting permanent magnetic motor and lithium ion battery.

**LED LIGHTING**

Ultra Efficient platform built with energy savings in mind. LED lighting through out, low rolling resistance tires, batteries that use nearly 100% of their capacity.

**TWIN PASSENGER SEATING**

Adjustable seating for two, forward and rear adjustment as well as upper back rest tilt. Seat belts are standard.

**MAX•EV ACCESSORIES**

A.

B.

C.

D.

E.

F.

- A. Clamping walls
- B. Tool chest (*not as shown*)
- C. Bluetooth radio
- D. Heat (*AC coming soon*)
- E. Van body\*
- F. Ladder rack\*, Nerf bar, Alloy wheels

\*Ladder Rack and Van Body available soon

o = optional y = yes n = no n/a = not available

<b>Total Payload** (Optional upgrade)</b>	1000 (1500)	1000 (1500)	1000 (1350)	1000 (1350)
<b>EST. MSRP***</b>	\$16,950	\$19,500	\$26,950	\$30,950
<b>EST. Municipal Lease – Don't pay until June 2021!</b>	\$363	\$412	\$556	\$633
<b>Potential Monthly Lost Parking Revenues Per WWI Study</b>	-\$3,250	-\$3,250	-\$3,250	-\$3,250
<b>Best for</b>	4 wheel LSV for utility, transport, or parking enforcement. Twin passenger, 5 ft deck, optional RH drive, limited to 25mph on a 35mph our road.			
<b>Classification</b>	Low Speed On Road Vehicle			

\*Range is an estimate and is quoted without use of accessory draw such as heat & AC. Heavy payload and severe terrain impact range as well.

\*\*Total Payload includes allocation for operators. MAX 15-20 have reduced payloads due to max GVWR LSV class of 3000lbs.

\*\*\*Note; Manufactures MSRP excludes freight, PDI, taxes, any applicable local fees, and may vary somewhat per territory.

Lease figures based on a municipal lease purchase, 60 month term, do not pay until 2021. Please note specs may change, verify before purchase.

Non-appropriations clause in case funding is not available, taxes & freight additional. Conditional pre-approval.
