

Motocross game

(Single player)

Player places 3 balls in the “pits”

Take one ball and place it in the “start”

Using the handle-bars the player try's to maneuver the ball to the “finish” without falling off the deck.

Once a ball falls of the deck it cannot be reused

If the player gets all 3 balls to the “finish” they win 4 prize tickets

If the player gets 2 balls to the “finish” they win 2 prize tickets

If the player gets 1 ball to the “finish” they win 1 ticket.

Motocross game

(two players use two units)

Each player places one ball in the “start”. The game operator says “ready set Go” which ever payer gets the ball to the finish first wins two tickets

Alternative is to do the above but do best out of three races
