

# Under the Knife

## -HOW TO SET UP GAME

- 1) Unhook and open leg supports.
- 2) Place the game rack about 9 feet from the front of booth.

## -HOW TO PLAY

This game is a large version of the old "Operation" game we use to play as kids. Players use the huge tweezers to extract fun parts from the nervous patient. If either the tweezers or the game piece touches the game board... Uh-Oh! The patient's nose lights up and funny sound effects are triggered.

### **Two players:**

Two players simultaneously try to remove different parts of the "body" without causing the BUZZER to ring. Player who has most objects pulled when the buzzer goes off wins.

### **One player:**

One player tries to remove as many objects as they can until they make the buzzer go off.

## -SUGGESTED PAY OUT

**Two player**                      Player with most objects gets 3 tickets.  
**One Player**                      one ticket per every object they retrieve.
