

2020 Safe Events Update

The health and safety of our event patrons, public safety officials, volunteers, the entire area community, and all involved in presenting the St. Cloud Area July 4th Fireworks, is our top priority.

We continue to monitor with federal, state and local officials and our key partners the quickly changing circumstances regarding Covid 19, and will work vigorously to determine impacts of a range of possible scenarios and to consider appropriate actions.

We are hopeful to work through this together and to find a way to put on a July 4th Celebration demonstrating how much we love our country, how much we want to celebrate everything great about our community, and this nation.

Life, Liberty and the Pursuit of Happiness
