 - 3) The number of alternates allocated to each precinct shall be determined by the DSC and shall be the same for all precincts.

 - b) For all other precincts, calculate a remainder value for each precinct by subtracting the number of allocated delegates from $D \times P / T$. Then, assign alternate number Z+1 to the precinct with the largest remainder value, Z+2 to the next largest, and so on.
 - 5) Additional alternate positions in each precinct are numbered by adding the total number of precincts in the district to the preceding alternate number. The total number of alternates elected at caucus may exceed the allowable size of the alternate roster.
 - 6) After caucus and before the County Assembly, the DSC shall fill the delegate roster by promoting alternates to delegates in order of alternate number until the roster is complete. Then, the DSC shall fill the alternate roster with the remaining alternates, in order of alternate number.
