

Please DO NOT Throw Trash in Soiled Linen Bags

There is a protocol for proper trash disposal. The effects of putting trash in linen bags are far reaching:

- There may be a fee charged to the hospital.

- Trash may damage linen. If non-linen items get into the wash process, they may cause costly damage to Faultless Linen's equipment and can cause delays in returning clean linen to your hospital.

- Please use linen carts for linen distribution and soiled linen collection only.
