

working his gang. Even though they should have the FWD placard in the window as do you, they may switch trucks, especially after a meal period.

See under "NOTES" on the 6 BD line where he wrote the names of the other gang's field clerks. And lower under notes he wrote the RTG #'s and their operator's names as he used them. This is good to know as you will be switching RTGs with other clerks and you want to know RTG #'s and operators in other stacks that are working this ship.

The Discharge and Load SEQUENCE SHEETS for each hatch are assembled in the order to be worked as per the Game Plan.

Below are examples of SSA and CERES game plans:

SSA-COOPER CONTAINER GAUVIC PLAN

VESSEL: ZIM MONACO GANG: FWD

DECK: _____	HEADERS: _____
DOCK: _____	GANG: _____
	LASHERS: _____
	DRIVERS: _____
QBACK: <u>DENNIS CORNELIUS</u>	VSL FOREMAN: <u>TONY BARRAS</u>

BAY	MOVES PER BAY
	- 371 TOTAL -
2-2	Disc 41 x 40 DK (R/S RF TO BAY 62)
	LOAD 4 x 28 DE
	21 x 40 -

CERES Gameplan

Ceres Terminals Inc. ISO8001:2000

As with Ports America, both list the ship BAYS in the order to be worked.

The Radio Channels for each gang are written at the page bottom.

The ship Company foreman or QB (quarter back) name and channel should also be there.

The DOCKMAN name may be there but this often changes, so call him.

Note the Assembly Clerk with CERES also wrote the FIELD BAYS you are going to or from on each hatch line. For Discharge this corresponds to the SPACE SHEET and for Load Back the locations on the LOAD SEQUENCE SHEETS.

GANG: ONE

VESSEL: MAERSK UTAH START: _____ BERTH: _____

SC-SEND CLERK ALSO RECEIVE RC-RECEIVE CLERK ALSO SEND *IF INDICATED

NO FOOD TO BE BROUGHT ON BOARD ANY VESSEL - SUBJECT TO PENALTY.
