1. Please indicate the main focus points of each root of sustainability according to Charles Kidd 1992.

2. What are the differences between sustainability and sustainable development?

3. Compare the Shannon-Wiener Index of the biodiversity of a forest samples for a case of 5 species and the sample size is 100.
   (a) All equal species = 20 each.  
   (b) species; 1 = 20, 2 = 30, 3 = 10, 4 = 20, 5 = 20.
