Nautilus™ 4110

FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH FRAMELESS DOOR

Nautilus™ 4110 features a slimline, low profile twin tiered sill design with an offset pivot clamp.

Exceptional Value

Nautilus 4110™ provides the opportunity to indulge your imagination and create the absolute premium bathroom design at a surprisingly affordable price.

Handle Selection

An extensive range of handles are available in your choice of powder coated and gold, satin or chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Dress Trims
- Patented Pivot Mechanism
- Anti-bacterial clear (i.e. frost) and colour matched (i.e. silver) glazing vinyl

Incorporated PVC Buffer

Innovative design eliminates glass to metal contact with PVC buffer creating a cushioned water seal upon door closure.

Water Resistance

Nautilus 4110™ is fabricated to provide a high level of water resistance and eliminate external splashing, with an overlapping door and fixed panel for a drier safer bathroom floor.

Patented Offset Pivot Mechanism

Unique pivot design allows for a totally frameless door. Utilising a captive stainless steel top pivot pin, the Nautilus 4110™ Shower Screen System feature a 'positive close' low friction mechanism, providing the benefit of whisper-quiet and trouble-free operation.

Integrated Fixed Panel

Fixed panels are glazed directly into the outer frame, minimising the potential for residue accumulation.

Design Flexibility

Nautilus 4110™ Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

Slimline

Nautilus 4110™ is a visually appealing, highly functional, slimline (25mm wide) framed shower screen system, which features fully frameless door and fixed panel with 'slimline' return jambs.

Safety

Nautilus 4110™ Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

Advanced Sill Design

Contoured fully enclosed twin-tier sill combined with dual edge spray flap directs water run-off into shower base.
