Dr Ja Hyun Shin

Bowel Endometriosis

Dr. Joseph Raccuia

TBA

Break

Radiology and Endometriosis: Veracity in Imaging

Dr. Mauricio Abrao, Dr Scott Young, Dr Kathy Huang

Lunch

Roundtable Discussion in Lecture Hall The value of Fellowship training for Endometriosis's Future

Dr Megan Wasson, Dr Allan Adajar, Dr Adam Duke, Dr. Melissa McHale

The Endometriosis Surgery Op-Eds

History of research and drug therapy for endometriosis Dr. Geri DiPiano, Femme Pharma

The myth of hysterectomy as the answer Dr. Antonio Garguilo

Pain is not a dirty word

Intro and Moderated by Dr. Maurice Chung

Dr. Johnny Yi, Dr Dana McKee

Dr. Allyson Shrikhande, Neuroinflammation and Neuroplasticity

Dr. Yaniv Larish Modulating Nerves

Dr. Nash Moawad Endometriosis's Role in Pelvic Pain

Master Classes and Breakouts

Lecture Hall

Endometriosis Advocacy Master Class

Bench to Beltway to Bedside: Advocacy for Endometriosis

Heather Guidone, BCPA, Center for Endometriosis Care

Introducing the first Board Certified Patient Advocate Master Class in Endometriosis Advocacy. This course discusses the role of the Professional Advocate in reducing delays in diagnosis, improving outcomes, clinical research, and increasing public awareness for endometriosis; reviews the importance of multidisciplinary care for the disease; and navigates various practitioner, community, employer, research, legislative, support, and other advocacy resources to enhance the patient experience.

The Endometriosis Summit: Patient & Practitioner Town Meeting Program 'Bench to Beltway to Bedside: Advocacy for Endometriosis' is approved for 2 CEs by the Patient Advocate Certification Board to satisfy the requirements for Board Certified Patient Advocates (BCPA). Program Approval Code 18173.

Advocacy Course open to all attendees and is part of Endo Summit Surgery Registration as a breakout. If you are seeking the CEU's then you will need to add the Add-On. No CEU's? Then the class comes with Endo Summit Surgery registration. All laypersons attending Endo Summit Surgery will be added to the Endometriosis Advocacy Master Class during breakout sessions. If you are seeking BCPA CEU's Advocacy Course has a separate Add-On.

Available VIRTUAL and LIVE

Lab 1

Pelvic Pain Master Class

Pelvic Nerve Treatments and Anal-Rectal Manometry

This lab overviews the synergistic nature of a multi-specialty team for treating endometriosis and pelvic pain. Designed for pelvic physical therapists to expand

their knowledge on medical interventions available for endometriosis's co-morbidities beyond surgery.

Dr. Allyson Shrikhande, Physiatrist and CMO of Pelvic Rehabilitation Medicine teaches the core elements, including diagnosis and non-operative treatment options, for a successful pelvic floor physical therapy and pelvic physiatry relationship for those with endometriosis. She will demonstrate techniques for modulating nerve driven pain and nerve injections.

Dr. Murray Orbuch, a gastroenterologist working with people with endometriosis, discusses treatments available for those suffering from constipation and endo belly secondary to pelvic floor muscle issues. He will conduct a full instructional lab on anal-rectal manometry.

Available LIVE only.

This course is for physical therapists only. Complete the Add-On as part of the Endo Summit Surgery Registration. Must show proof of licensure upon entry to the lab.

Available Live Only

Lab 2 Surgical training

Available Live Only
