

To whom it may concern,

It is with great pleasure that I recommend MWC construction as you consider your upcoming projects. MWC constructed a 2 Story Elementary school addition for us at Temple Elementary School and proved to be a very competent, honest, and high quality General Contractor. MWC was recently awarded a \$10,000,000.00 project with us at Central High School and have done a commendable job so far keeping up with a very aggressive construction schedule. They are very conscientious of the quality work and service they provide as well as keeping the needs and protection of the students as a priority. Proposed Change Orders are communicated well and were addressed in a fair and professional manner. MWC completed the Temple project on time and below budget and followed up expeditiously on punch lists and the minor completion issues that arise with any project. I look forward to them bidding on future projects with Carroll County Schools and once again recommend them for any project in your future as well.

Sincerely,

A handwritten signature in black ink, appearing to read "David Goldberg". The signature is fluid and cursive, with a large initial "D" and "G".
