½ Day-Safety Conversations for Worksite Visits

Conversation is one of the most powerful tools for Risk Management (Safety) ~John Wettstein

Workshop Overview-Beneficial Results

This workshop introduces participants to *positive safety conversations*.

One of the best techniques in preventing incidents happening in your organization are formal and informal safety conversations centered on questions for understanding and learning. Questions lead to learning as they promote understanding of how people make sense and decisions about safety and risk.

Knowing how people make sense and decisions about safety and risk gives us insight into why people act in ways on what makes sense to them during the task.

Frequent safety conversations and worksite visits increase accessibility and visibility. Worksite visits are wonderful ways to uncover tacit knowledge. Worksite Visits are also a powerful way to promote trust, understanding, and collaboration, creating an environment of open, respectful communication where workers can be heard. It is these communication habits that are most crucial for creating a learning culture, that *results* in productive discussions, early detection of problems, preventing injuries and incidents.

What You Will Learn?

- ✓ Communication Strategies
- ✓ Understanding Error
- ✓ Psychological Safety
- ✓ How to SPEAK UP!
- ✓ How to LISTEN UP!

Who Should Attend?

This workshop is essential for every employee, given that we have an obligation to take reasonable care to protect the health and safety of all workers.

The Facilitator?-John Wettstein, CRSP, CHSC

John, a Canadian Registered Safety Professional (CRSP), Certified Health and Safety Consultant (CHSC), workplace trainer, author and owner of WETTSTEIN SAFETY STRATEGIES INC., has developed and delivered customized training programs for the electrical industry, the oil and gas industry, mining, and construction industries.

With fifteen years experience as a tradesman and over thirty years as a health and safety professional, John's fun, active training workshops are reinforced with humour and enthusiasm, inspiring employees to manage Risk (Safety) through conversations.
